## Russia Calls West Arms Plan Impractical

### Warning Made on Extension Soviet Proposal Urged at Geneva

GENEVA (AP)—The Soviet Union belittled a Western plan for disarmament today at the opening of a 10-nation conference called to find a way for ending the world arms race.

Soviet Deputy Foreign Minister Valerian Zorin described as impractical the proposal put forward by the United States, Britain, France, Italy and Canada.

#### Halt Extension: Eaton

He urged instead that the conference take up a rival Soviet proposal which in Western eyes does not contain adequate control provisions.

The Soviet delegate spoke just before U.S. Ambassador Frederick M. Eaton took the floor as the final speaker. Eaton urged the conference to take "immediate action to prevent an extension of the arms race into outer space."

This problem has arisen since the collapse of the last Soviet negotiations on disarmament in London in 1957.

Eaton stressed that arrangements to cut back forces and weapons must be subject to fool-proof controls. He added that "the initial steps must not be overly ambitious."

#### Both Stress Details

Both Eaton and British Minister of State David Ormsby-Gore stressed that the control problem would need to be carefully worked out. The American delegation leader said:

"It has been said that there must be no inspection without commensurate disarmament. Conversely, the security of the world requires that there be no disarmament without commensurate inspection. We must patiently find our way through this difficulty."

The west's plan for ending the arms race calls for creation of an international disarmament organization with ultimate power to enforce disarmament. The rival Eastern plan is based on Soviet Premier Nikita S. Khrushchev's call for total disarmament within four years. He first unveiled it in a speech to the U.N. General Assembly last Sept. 18.

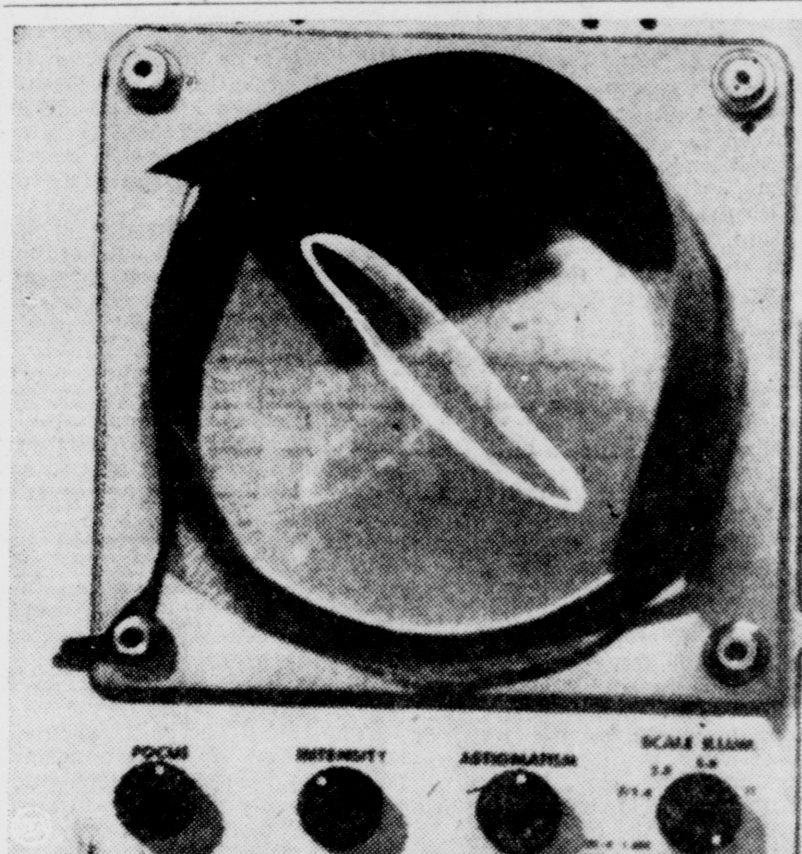

The conference likely will set up several study groups and committees of experts which may deliberate for months or even years. U.S. negotiators were told to expect to stay in Geneva at least a year. But a Soviet commentator in Moscow called for speedy action.

#### On Numerical Basis

For the first time in more than a decade of arms talks, East and West were meeting on an equal numerical basis. On the Western side were the United States, Britain, France, Italy and Canada. Representing the Communist bloc were the Soviet Union, Poland, Romania, Czechoslovakia and Bulgaria.

Previous disarmament talks were carried on mostly by the United States, Britain, France, Canada and the Soviet Union. The Western plan was submitted to the Communists informally Monday night. Like previous Western proposals, it called for tightly controlled, step-by-step disarmament. Its chief new features were the international organization which ultimately would have vast powers, an earlier start toward nuclear disarmament, and emphasis on the use of outer space for peaceful purposes only.

Spirited contests were anticipated today during the elections taking place in the villages of Rosendale and Ellenville. Trustees also will be elected by voters.

### Hope Ebbs For Rescue of Entombed 18

LOGAN, W.Va. (AP) — Hope ebbed today for rescue of 18 trapped coal miners as rescue teams probed the areas where they might have taken refuge and found no one.

One area was found empty Monday night and another this morning. There were no signs of the men at the entrance to the third and final refuge where the men, trapped since last Tuesday, may have gone.

**Cut Off Last Tuesday**  
"If they're up toward the slope, they're dead," said Paul Lingo, deputy state mines director. Basic mine safety instructions call for trapped men to use chalk or other means to leave signs for rescuers.

The 18 were cut off about 8 a.m. last Tuesday when a small rock slide snapped an electric cable that ignited some timbers. The timbers in turn started a smoldering fire in the coal.

Communication was maintained with the miners for about four hours until that line, too, was broken, apparently burned through by the fire.

**Considered Worst Choice**  
An alternative would have been to try to make it through the main passageway to an old mine entrance on the other side of the mountain. This way has been blocked for some time, and safety officials consider it the worst.

### Jack Resumes as Borough Boss, Free of Indictment

NEW YORK (AP) — Manhattan Borough President Hulan E. Jack, free of an indictment charging him with violation of the city charter, resumes his \$25,000-a-job today.

The nation's highest Negro city official announced his return shortly after the two-month-old indictment was thrown out on a technicality Monday.

Charges of conspiracy and violation of the city charter grew out of Jack's acceptance of a \$4,400 remodeling job on his Harlem apartment from real estate operator Sidney Ungar. Ungar, Jack's one-time campaign manager, was seeking city approval at the time for a multi-million-dollar slum clearance project.

When he was indicted Jan. 12 Jack voluntarily gave up his job

and salary pending a legal decision. General Sessions Judge Gerard P. Cuklin ruled that the indictment was not properly drawn. But he said the district attorney could start a new grand jury inquiry into the 52-year-old Jack's conduct.

Dist. Atty. Frank S. Hogan promptly announced that he would do that if necessary, but would first appeal Cuklin's decision to the appellate division of the State Supreme Court.

A copy of Cuklin's decision is being sent to Gov. Rockefeller, the only person with power to remove a borough president from office. The governor could do so even if the borough president had not been convicted of a crime.

### N-B Span Work Set For Fall

#### Arterial Road Money Provided

ALBANY, N. Y. (AP) — The proposed Newburgh-Beacon bridge will be redesigned as a two-lane span and work will begin in the early fall, Gov. Rockefeller announced today.

The state will loan the New York Bridge Authority 20 million dollars to build the structure and the financing will not involve any increase in tolls on other bridges operated by the authority, the governor said.

#### \$4½ Million Ready

All the bridges involve span the Hudson River.

Rockefeller said an initial appropriation of 4½ million dollars to begin work on the bridge would be contained in the supplemental type budget to be submitted next week.

The governor also announced the budget would provide 1½ million dollars for construction of an arterial highway through Poughkeepsie. This will connect with the Mid-Hudson bridge, also operated by the State Bridge Authority.

The Newburgh-Beacon Bridge originally was envisioned as a four-lane span that would cost 40 million dollars. There was delay because of difficulties over financing.

#### \$20 Million Cost

Financing plans offered would have involved increases in tolls on the four present bridges operated by the authority, which is required by law to maintain uniform toll rates on all its bridges.

Rockefeller said the new, two-lane bridge would cost about 20 million. The governor said recent studies had shown that a two-lane bridge would be adequate to handle traffic for at least 25 years.

When the traffic load is beyond the capacity of the bridge, a second, two-lane span could be constructed parallel to the original structure, the governor said.

The 20-million-dollar loan will be spread over four years. When the bridge is completed, the authority will issue bonds and repay 15 million. The balance will be paid from tolls.

#### Lists Link Plans

The governor also announced plans to build connecting routes between the new bridge. These

### Branch Bank Has 40th Anniversary

Today marks the 40th anniversary of the opening of the Kingston Trust Company Central Branch, which was opened on March 15, 1920, at Broadway and Dederick Street. Officers and employees in an advertisement in The Freeman today, invite their friends to stop in for an anniversary visit.

Ernest LeFevre, vice-president and manager of the Central Branch, and Vernon S. Miller, assistant vice-president, who joined the Branch in its opening year, today received the congratulations of hundreds of customers and friends and Arthur A. Davis, president and treasurer, received many compliments at the Kingston Trust Company main banking house, Main and Fair Streets.

### No Penalty if Tax Is Paid Wednesday

Scores of Kingston residents today avoided a penalty on general taxes, by making payments on the first installment at the offices of City Treasurer Orrie R. Riehl.

Midnight today is the deadline for making the payment on the first installment without penalty. After that a two per cent penalty will be added to the tax bills.

Riehl said that his office will accept payments received in the morning mail on Wednesday without imposing penalties.

### Uptown Stores To Pay Bus Fare Of Lady Shoppers

Something new in the line of promotions locally will appear Thursday, March 17, between 9 a. m. and the noon hour.

Women shoppers who ride the buses of the Kingston City Transportation Corporation on St. Patrick's Day between the hours of 9 a. m. and noon will have their transportation paid for them, courtesy of the Uptown Businessmen's Association.

This arrangement was announced today by Jay Melton, manager of the Standard Furniture Company and chairman of the Promotion Committee of the Uptown Businessmen's Association.

Members of the uptown group will provide a member of their staff to ride each bus and pay the fare of all women bound for a shopping tour of the uptown area.

This innovation will be given a trial in conjunction with a St. Patrick's Day sales promotion by the uptown stores, said Jay Melton, chairman.

"We trust that this idea will be an incentive for the women of Kingston to shop the uptown area — your complete shopping center, and to take advantage of the St. Patrick's Day sales promotion," Chairman Melton said.

### Resist Any Berlin Deals, Plea to Ike

WASHINGTON (AP) — German Chancellor Konrad Adenauer made his personal plea to President Eisenhower today to resist concessions on Berlin at the summit meeting in Paris in May.

He arrived at the White House at 10:27 a.m. and was quickly ushered into the presidential offices.

The visiting West German chancellor had an extended date at the White House, lasting from mid-morning through lunch, then appointments with Secretary of State Christian A. Herter and other State Department officials in the afternoon.

#### Wants Arms Priority

Adenauer was reported ready to advise Eisenhower to avoid the Berlin issue at the summit and place priority instead on progress toward disarmament.

Both Germany-Berlin and disarmament are on the agenda for Eisenhower's mid-May summit talks in Paris with Soviet Premier Nikita Khrushchev and the British and French chiefs.

Adenauer was known to feel that no good can come from a temporary deal on West Berlin, the

Red-encircled city from which Khrushchev wants all Allied troops withdrawn.

#### Will Retain Freedom

Eisenhower and Herter in turn were reported prepared to promise not to sell out the West Berliners. But U.S. officials said they also intended to retain freedom to offer some concessions if Khrushchev gives guarantees improving the Allies' shaky hold on the city.

Adenauer, on a two-week tour of the United States, arrived Monday night for his 2½-day stop in the capital.

### Will Speak At Old Dutch Sunday at 11

Dr. Arthur S. Flemming, a native Kingstonian, Secretary of health, education and welfare in President Eisenhower's cabinet, will preach at the Old Dutch Church at the 11 o'clock service next Sunday, it was announced today.

The public is invited to attend the regular worship services. Special music is scheduled.

#### Postponed Earlier

Flemming's appearance in the pulpit of the Old Dutch Church was originally scheduled for the 300th anniversary of the church which was observed in a year-long celebration during 1959. It had to be postponed, however, due to conflicting engagements.

The 9:30 a. m. services will also be held at the church but Fleming will speak only at the 11 o'clock worship services. Assisting will be the Rev. Arthur E. Oudemool, minister, and the Rev. David Braun, seminary associate minister of the church.

Flemming is the son of Mrs. Harry H. Flemming of Kingston and the late Judge Fleming.

### Rocky Now Agrees to Aid Figure Legislature May Ballot Wednesday

By ROBERT T. GRAY

Associated Press Staff Writer

ALBANY, N. Y. (AP) — Gov. Rockefeller is in general agreement with a plan to increase state aid to education by 70 million dollars in the next school year.

Legislative leaders are hoping to put the program to a vote Wednesday.

The Republican governor originally proposed a boost of 25 million in state aid for the school year beginning in September.

#### Must Work Out Details

But GOP legislative leader rejected this as inadequate and came up with the 70-million-dollar proposal. It now seems assured of passage in the GOP-controlled Legislature.

The governor's office said Monday Rockefeller now was in "general agreement" with an increase "in the range of 70 million."

#### \$10 Million Overall

This amount would be in addition to a 30-million-dollar increase mandated by present state-aid formulas, so the overall total would be 100 million.

Details of the program are still to be worked out.

Meanwhile, the governor and legislative leaders were reported considering increasing state aid to New York City by 45 million dollars in the 1960-61 budget. The governor had called for a seven-million-dollar cut in the aid, which totals 392 million dollars in the current city budget.

The total boost of 45 million for the city would include 20 million in school aid under terms of the 70-million-dollar school package.

The proposals for substantial increases in spending beyond the governor's recommendations followed state revenues running far ahead of estimates. There will be substantial surpluses for the current fiscal year.

In other legislative developments:

#### Rocky Visits Assembly

1. Rockefeller continued his campaign to regain the high popularity he once enjoyed with the Legislature. The governor visited the Assembly Monday night to join in a brief ceremony of the Pilots Assn., a social club of legislators. Rockefeller was received warmly.

2. The Assembly passed and sent to the Senate a bill that would repeal the controversial Youth Court Act, which is scheduled to

### Democrats Don't Consider Adlai for '60 But Party Victory May Mean State Post

WASHINGTON (AP) — Many Democrats here consider Adlai E. Stevenson as a likely choice for secretary of state but not for the party's presidential nomination.

Stevenson, twice the party's nominee, has long disavowed any intention of making a third race for the office. But speculation was renewed Monday that he might make a soft-sell campaign and the Wall Street Journal said that "well-heeled Eastern Democratic liberals stand ready to finance this off-beat campaign."

Stevenson, now on an extended South American tour, replied jokingly in Mendoza, Argentina, to newsmen who asked about his presidential chances.

"I can't say anything about chances when I do not even know

whether I'll be a candidate," he replied.

There is a growing belief among influential Democrats here — and they include some of Stevenson's best friends — that the former Illinois governor is fading out of the nomination picture.

Generally, they think Stevenson has waited too long to make any move to change his position that he isn't a candidate. He has said he would become one only as a result of a draft he doesn't believe will take place.

There is recognition, too, of the progress Sen. John F. Kennedy (D-Mass.) now is making toward the elimination of any deadlock in the balloting at the Los Angeles convention in July.

Kennedy has more primary battles ahead, particularly in Wis-

consin, West Virginia and Oregon, before any of his rivals will begin to show any signs of political panic. But there is a certain amount of uneasiness among them about Kennedy's inroads into delegations from states not holding primaries.

Stevenson's chances for the nomination seem likely to depend in part on what happens to Sen. Hubert H. Humphrey (D-Minn.). If Humphrey, Senate Democratic Leader Lyndon B. Johnson of Texas and Sen. Stuart Symington (D-Mo.) can stop Kennedy in a deadlock, Humphrey might try to turn his strength to Stevenson if he can't make the grade himself.

If he doesn't get the first prize, Stevenson seems to be every other candidate's choice for secretary of state — if the Democrats win.

## Ex-Dancer Held In Pistol Death Of Her Husband

BAY MINETTE, Ala. (AP)—A 42-year-old former dancer was held today on a murder charge in the pistol slaying of her husband, an insurance executive and former military governor.

Mrs. Loraine Heyl was booked Sunday night after Charles H. Heyl, 58, was shot in the chest at his home on Mobile Bay.

Sheriff Taylor Wilkins quoted Mrs. Heyl as saying the shooting was accidental and occurred while she and her husband struggled for a .32 caliber pistol following an argument. He died immediately.

Heyl was named president of the Loyal American Life Insurance Co. of Mobile in 1958. He came here from Lincoln, Neb., where he was vice president of Bankers Life Insurance Co.

He was a graduate of the U. S. Military Academy at West Point and was military governor of southern Bavaria when discharged from military service.

Mrs. Heyl, an ex-WAC officer, at one time was a choreographer for a nationwide dance studio. She was Heyl's third wife. They were married about six years ago.

## Ford Takes Over FCC Job, Gives Views to Congress

WASHINGTON (AP) — Frederick W. Ford takes over today as chairman of the Federal Communications Commission and promptly gives Congress his views on how to protect government agencies from improper influence.

The new FCC chairman was called as the first witness at House hearings on legislation legislation aimed at outlawing backdoor influencing of government regulatory agencies.

Among other things, the legislation would impose a far-reaching code of ethics on the big six of the regulatory agencies — the FCC, the Federal Trade Commission, the Interstate Commerce Commission, the Civil Aeronautics Board, the Federal Power Commission and the Securities and Exchange Commission.

Ford, 51, a member of the FCC since 1957, was elevated to the chairmanship by President Eisenhower when John C. Doerfer resigned under fire last week after vacationing on the yacht of a broadcasting magnate.

## Admits Killing Friend's Mother Over Prosperity

VICTORVILLE, Calif. (AP)—A 17-year-old boy has admitted he killed the mother of one of his friends with an iron rod, authorities say, because he was jealous of her family's prosperity.

A homicide officer said young David Marz of nearby Anole Valley will be booked as an adult for investigation of murder in the death of Gladys Hodge, 47. She was beaten Friday night and died Sunday.

Sheriff's Lt. Barton A. Keene said David was a school chum of Mrs. Hodge's sons and often used the swimming pool at the Hodge home. David is the son of a cleaning plant employee.

Keene said David expressed envy because the Hodge's had many things his family couldn't afford.

## Morse Is Endorsed

WASHINGTON (AP)—The District of Columbia Democratic Central Committee has voted to endorse Sen. Wayne Morse (D-Ore) for president.

Morse won the committee's endorsement Monday night in a 14-8 vote.

The endorsement had been expected. A. L. Wheeler, chairman of the central committee, also is head of the District Morse-for-President Club.

## Russia Calls West

The West's plan calls for three general stages.

First it would set up an international disarmament organization, linked to the United Nations, disarmament. All nations would tell the organization what they were spending for military purposes. The United States and the Soviet Union would cut their armed forces to 2½ million men each. The armed forces of other nations would also be reduced.

All nations also would place agreed quantities of conventional armaments into storage depots in their own territories. Studies would be made of ways to police a cutoff in the manufacture of nuclear materials for military purposes and of transforming nuclear military stockpiles to peaceful uses.

Would Include Peiping

In the second stage another disarmament conference would be called to include Red China and all other nations with powerful military forces.

This phase would ban use of space vehicles for mass destruction after installation of an effective control system. Nations would have to notify the international organization when they planned to launch missiles for peaceful purposes.

Production of fissionable materials would halt, and "agreed quantities of production (would be) transferred under international supervision and control to non-weapons uses, including stockpiling."

Armed forces levels would again be reduced, with the ceiling for the United States and the Soviet Union lowered to 2,100,000 men and corresponding reductions in other countries.

The final stage would reduce all armed forces to levels so small none could "effectively oppose enforcement of international law."

Only armed forces sufficient for internal security would remain. This would be accompanied by a ban on all weapons of mass destruction, including nuclear chemical and biological. Existing stockpiles would be reduced or transformed for peaceful purposes with the eventual aim of "the final elimination of these weapons."

The international organization would control even national military budgets.

## Troopers Probing \$1,000 Burglary In Woodstock Area

Phoenicia State Police today are investigating a burglary at a summer home on Glasco Turnpike, Town of Woodstock, which netted the intruder house furnishings and other articles valued at \$1,000.

Trooper Richard Ryan said Nathaniel Kaz of Brooklyn reported his summer place had been entered by prying a side window with a screwdriver. Kaz said the house was entered some time since Jan. 4.

Included in the loot was a refrigerator, television, rifle, a rotary power mower, bedding and other household accessories and furniture.

Engine 3 and Truck 2 from Wiltwyck Station also was dispatched on the alarm but both trucks were intercepted by radio and returned to the station.

## Only Relaxing

## Just Compatible Says Singer of Cinema Gathering

HOLLYWOOD (AP) — Singer Lola DeWitt says it was just a "compatible group having a social gathering" the night police raided a Hollywood party and arrested her, TV actor William Talman, and six others.

Officers said the merry-makers had no clothes on.

Miss DeWitt, 31, Monday pleaded innocent to a morals charge. Talman—the district attorney on the Perry Mason TV series—will enter his plea Thursday, along with the other defendants.

All are charged with lewd vagrancy. In addition, the party's host, Richard Riebold, 21, faces a narcotics charge. Detectives said all were frolicking naked when the raid occurred. They said marijuana cigarettes were found in Riebold's apartment.

Newsman asked Miss DeWitt if, as charged, everyone was stripped. Replied Miss DeWitt: "We were comfortable."

She added: "We were a compatible group, very friendly, having a social gathering. In our business people have to relax, you know."

Talman, 45, has played the hard-luck district attorney in the Mason series for three years.

## Rosendale, Tillson News

## Contractor Named For Village Water System Alteration

Engineers August Brinnier and Christus Larios of Kingston announced that, as a result of the opening of sealed bids recently, Joseph Gruner Contractors, Inc. of Highland, were awarded the contract for additional alteration to the water distribution system for the Village of Rosendale. Notice to this effect was given at the March village board meeting. The lowest bid was \$41,500 given by the Gruner Company although bids were received from nine other companies.

Residents were reminded that the election for village trustees would be held March 15 between 5 and 9 p. m. at the Rosendale Fire House. Candidates seeking the office of village trustee to replace Harold Schoonmaker who is not seeking reelection, are Louis Mastro, Democratic, Albert Morelli, Independent, and Louis Gerard DeFelice, People's Party.

Mayor John Vaughn received a letter from Joseph F. Carlinio, New York State Assemblyman, who wished the village to support an act amending general municipalities by adding a new section to provide for the acquisition of interest in open spaces and areas. Any county, town or village may acquire by purchase, gift, grant, bequest, devise, lease or otherwise and through public funds the fee or any lesser interest or right in real property to order the preservation through limitation of future use of open spaces and areas for public use and enjoyment, according to the proposed bill number 4307, Int. 4103.

## Back-to-Work Plan May Halt Hollywood Strike

HOLLYWOOD (AP)—Hopes for an early settlement of the strike of 3,000 Hollywood actors rose today as negotiators for the Screen Actors Guild considered a back-to-work plan.

Guild officials said they will decide by Thursday if actors will be allowed to go back to work on eight films which were in progress when the walkout halted shooting.

Mediators hoped that if the guild agrees to resume work the Assn. of Motion Picture Producers will match it with a concession opening the door to an early settlement of the dispute, which began March 7.

The SAG is seeking a pension and welfare plan, and wants the studios to use funds from the sale of TV of post-1948 films to augment the pension program. The producers have opposed the principle of any payments based on sales to TV.

## German Plane Missing

MILAN, Italy (AP)—A German cargo plane with seven persons aboard was missing today on a flight from Germany to the French Mediterranean coast.

Ships along the coast were alerted, and planes began searching north of Pisa as well as along the Riviera.

It could not be learned immediately if military or civilian personnel were aboard. The plane was bound for Marseille and Nice.

## Jury in Robbery Case Continues Its Deliberations

A Dutchess County trial jury early this afternoon continued deliberations in the first degree robbery case of three Poughkeepsie men, who are accused of a holdup at the Monte Carlo restaurant, 181 Main Street, on Jan. 4.

Defendants are Robert L. Lawrence, 21, who was shot in the leg as he fled from the tavern by the proprietor, Raymond Osterhoudt, Greenbush Park; Coleman Simmons, 21, and Cleveland Calloway, 22.

Court Judge John R. Schwartz finished his charge to the jury at 4:25 p. m. and the jury retired to deliberate. After receiving instructions and hearing testimony of some witnesses reread, the jury retired and shortly before 3:30 a. m. Judge Schwartz ordered the jury locked up at the Nelson House.

The jury returned to the courthouse today to resume deliberations and at noon the jurors went to a Poughkeepsie hotel for lunch.

Lawrence, who developed an infection in the wounded leg, was taken from Vassar Hospital to the courtroom in a wheel chair late in the afternoon to testify.

A fourth defendant in the case, James Gonzalez Medina, 30, of Poughkeepsie, pleaded guilty last weekend to a reduced charge of second degree robbery. He will be sentenced April 12.

Assistant District Attorney Eugene Frink prosecuted the case.

## Start Campaign For Promotion Of Milk Products

The campaign to secure funds for fluid milk production being conducted by the American Dairy Association and Dairy Council of New York is now underway in 10 counties in south-central and eastern New York State officials of the organization said today.

This campaign was inaugurated early in February in Cortland County, one of the major milk producing counties in the New York-New Jersey milkshed. The dairy farmers in that county are said to represent a good cross-section of the entire milkshed.

This fluid milk production program will be directed by producers to best meet the needs and desires of all producers in the milkshed. The board of directors will consist of a representative from each of 19 districts into which the milkshed has been divided. In addition, each of the seven major cooperatives in New York and New Jersey and the state Grange and Farm Bureau will have a representative on the board.

A 57-year-old Poughkeepsie book store proprietor, today pleaded innocent in City Court before Judge Charles O'Donnell to a charge of possessing pornographic pictures in violation of Section 1141 of the Penal Law. Emil C. Heller, who operates the Book Case on Garden Street, was released in bail of \$150 and the case was adjourned until Tuesday, March 22.

Investigating the case were Detective Sergeant James Murphy, and Detectives Francis Doerr, Edward McLaughlin and Frank O'Shea. Police said they seized about 60 pictures that they saw in possession of the defendant.

Would Be Open to Press

ALBANY, N. Y. (AP)—Welfare rolls would be open to newsmen, who could publish the names of cheats, under a bill approved by the Assembly.

News agencies, however, would be barred from revealing names of legitimate receivers of welfare aid.

The unit is made up of eight liquid oxygen and kerosene fuel tanks surrounding a 105-inch-diameter oxygen tank. The booster is 80 feet long and develops 1,500,000 pounds of thrust. The Saturn missile is expected to be operating by 1962-63.

**Supervisors Are Pledged to Build Fallout Shelters**

BALLSTON SPA, N. Y. (AP)—Saratoga County's supervisors are pledged to build fallout shelters in their homes within one year.

Nineteen members of the board, 15 Republicans and four Democrats, approved the pledge unanimously Monday night. One member was absent.

Gov. Rockefeller, a Republican, has urged that the state require all property owners to build shelters at their own expense.

Republican Supervisor Dennis Mansfield of Saratoga Springs told the board that "we would be remiss in our duties if we did not take the initiative in our own county to show that we are aware of the great need for active participation in a program for survival."

Robert Clarke, county civil defense director, said he believed this was the first action of its kind in the state. Clark has a fallout shelter in his home.

**Changes Channels By Squeezing Can Of Air Deodorant**

BAY SHORE, N. Y. (AP)—When hospital patient Edward McBride wants to switch television programs, he can press his remote control gadget—or squeeze a can of air deodorant. Either one does the job.

McBride was perfectly happy with the show on his remote control TV set Monday. He just wanted to freshen up his hospital room a bit. So he squeezed the air deodorant can. Presto, a new TV channel flicked on.

With each squirt, he found, a new channel popped up. The can worked on ten other TV sets in the hospital and failed on five. Other push-button cans did nothing except what they were supposed to do.

A TV specialist explained that through some fluke the deodorant can had created an ultra-high frequency sound wave that triggered the channel-changing mechanism in the sets.

**Wage Underpayments Of \$1,834 Recovered**

Almost one million dollars in minimum wage underpayments was collected by the State Labor Department last year and turned over to workers to whom the money was due, Assistant Industrial Commissioner Edward J. Ray revealed today.

The total of \$988,625 was collected from 8,311 establishments throughout the state and distributed among 24,396 workers in line with the State Labor Department's enforcement of minimum wage orders.

In Ulster County, a total of \$1,834 was collected from 11 establishments for 33 workers. The department's Division of Industrial Relations, through its field investigation staff, administers minimum wage orders in ten industries: retail trades, laundry, cleaning and dyeing, confectionery, hotel, restaurant, amusement, building service, beauty service and camp counselor.

**\$4.38 Milk Price**

NEW YORK (AP)—A uniform farm price of \$4.38 per hundredweight (46½ quarts) has been announced for milk delivered in February to plants in the New York-New Jersey milkshed.

The price in January was \$4.56 and in February a year ago was \$4.54.

Market Administrator C. J. Blanford said Monday the producer butterfat differential for this February would be 5.4 cents for each tenth of a pound of fat above or below the 3½ per cent standard.

**Two Men Fatally Injured**

RIPLEY, N. Y. (AP)—Two men were injured fatally Monday when their automobile and a tractor trailer collided on Route 20, two and one-half miles west of this Chautauque County village.

The dead were Ford L. Corli, 61, and John N. Wolf, 44, both of Ripley. Police said Corli was employed by Wolf, an egg merchant.

**Rosendale, Tillson News****Women's Club Plans to Study Court Systems**

Following a report by Mrs. William Kloepper and Mrs. Gene Van Winkle about their visit to the forum conducted by Judge Louis G. Bruhn at the Kingston courthouse, Members of the Women's Club of Rosendale at their March meeting decided to further study the juvenile court system.

Members will study the possibility of having a judge in charge of juvenile court only instead of the present system. They will contact other organizations for support of the proposal.

Mrs. Thomas Burns, chairman of the Loan Closet, reported that the closet is now located in the American Legion Hall, second floor where there is more room. She said that George Bockelman, Chris Rainer, Mrs. Louis Mastro and Mrs. Wilfred Doolittle assisted in the move. Members voted to send Rainer and Bockelman some remuneration for their efforts.

Mrs. Van Winkle, third district publicity chairman, Mrs. Kloepper, Ulster County chairman, and Mrs. Joseph Hill, past Ulster County chairman were granted membership in the New York State Federation of Women's Clubs Formers group. The club will pay the dues yearly. The Formers is composed of all past state, district and county officers who have served the federation for two years or more. Most of the dues collected by the group are used for scholarships.

It was announced that Mrs. Anne Duffy is the new chairman of the scholastic committee, Mrs. Frederick Dippel and Mrs. George Moylan will meet in the near future to present recommendations for the scholastic award for this year.

Members were reminded that the Girl Scout cookie drive is now on and, especially since the Women's Club of Rosendale sponsored the Girls Scouts, members were urged to support the drive by purchasing cookies. An invitation to the seventh anniversary birthday party for the Rosendale Girl Scouts Thursday, March 24, beginning at 3:30 p. m. was received from Mrs. Herman Miller, Scout leader.

Members were notified that dues in the Rosendale Library Association were now being collected and, since the club has pledged complete membership, they were urged to join by sending their fee to Mrs. Arthur O'Leary library chairman of the club, or James McKeown, treasurer of the association.

Mrs. Burns mentioned the urgent need for canes for the Loan Closet and stated that anyone having any canes to donate should contact her.

It was voted to send three members to the state convention in Corning for part of the session during the week of April 25.

Mrs. William Curran was selected as chairman of the sunshine committee and she will distribute food and clothing donated by members of the club to the needy. There is still a need for a high chair and anyone having one to donate or sell may contact Mrs. Curran.

It was announced that money would be sent to the Red Cross and Cancer Drives. Mrs. Albert Morelli, a member of the club is chairman of the Rosendale Red Cross Drive and Mrs. Warren Larrabee, also a member of the club, is co-chairman of the Cancer Drive for the Town of Rosendale with Mrs. Richard Hampshire of Tillson.

A community Training Institute 9 a. m. to 4 p. m. March 30 at the State University College for Teachers, Albany, was reported on.

Word was received that the name of Mrs. Joseph O'Connor, the first president of the club, will be placed on the Honor Roll of the State Federation, as requested by the club, at the convention.

Members voted to send \$5 to the Radio Free Europe campaign.

Honorary membership in the club was discussed as a possibility for those members who have belonged for some time. Action on the matter was tabled until the next meeting so that members may decide on the best procedure to follow.

The program for the evening was presented by Mrs. Dippel, who told about and showed slides on her trip to Central America.

Co-hostesses were Mrs. Hill and Kloepper.

**Tillson Church Guild Officers**

Officers for the coming year for the Ladies Aid Society of the Tillson Reformed Church were elected at the March meeting were:

Mrs. Ernest Hopper, president; Mrs. Joel Woolsey, vice president; Mrs. Howard Sutherland, secretary; and Mrs. Alvah Winfield, treasurer.

The group made plans for a spaghetti supper to be held Saturday, beginning at 5 p. m.

**Tillson Cub Scouts**

TILLSON — Twenty-five Cub Scouts and two den chiefs of Tillson Cub Pack 17 were guests of Central Hudson Gas & Electric Corporation on a one hour lecture and tour through the Danskammer steam station at Danskammer Point, Saturday, March 12. Most impressive was the lecture on electrical safety.

At the March 11 pack committee meeting, George Morelli was appointed to assist Cubmaster Louis Meunkel.

Cubmaster Muenkel has requested all parents of cubs to attend the cub pack meeting Friday, March 25, at 7:30 p. m. at the Tillson elementary school.

**Fire Auxiliary Meets**

There will be a meeting for all members of the Rosendale Fire Department Auxiliary Thursday, 8 p. m. at the firehouse.

**Two Get \$15,603 From Messenger; On Way to Bank**

BUFFALO, N. Y. (AP)—Police were seeking two men today in connection with a \$15,603 robbery of a messenger Monday in downtown Buffalo.

James Puntillo, 63, an employee of the G. A. Kayser & Sons Inc., was knocked down as he left to deposit the money in a bank, police said.

A man approached Puntillo in the company parking lot as he was entering his automobile, police said, and demanded the money.

"Don't bother putting that in the car," the man said, "I want that bag."

Puntillo said the man ran across the street and got into a car. A witness said a companion drove the car away as the robber crouched in the back seat.

Puntillo carried the money in a leather case inside a paper bag, police said. The trip was made daily during the noon rush hour, a spokesman for the beauty and barber shop supply firm said.

The robber took both cash and checks, a company spokesman said, but a breakdown was not available.

The company has branch offices in Rochester, Syracuse, Binghamton and Erie, Pa.

**Board Authorizes Bid Advertisement**

At the adjourned meeting of the Town Board of the Town of Rochester Tuesday, March 8, the board authorized advertisement for bids for fuel oil for heating the town garage prior to termination of the existing contract.

The regular meeting of the board had been adjourned due to the heavy snow storm. All members were present with Supervisor A. Richard Tervilliger presiding. Six citizens of the town also attended. Routine business, auditing of claims against the General Fund and reading communications rounded out the agenda.

At a special meeting of the board held in February unanimous authority was given for purchase of a York Power Grader from the York Modern Company and two Chevrolet dump trucks from the Anderson Chevrolet Sales, both firms being low bidders following advertisement for the equipment.

**Two Dates Named For Polio Shots**

Two dates have been announced for polio inoculations by the Rondout Valley Lions Club. The third in a series of shots will be given to persons from four months to 40 years of age at:

Marbletown Town Hall on Thursday, March 17.

Rosendale firehouse on Friday, March 18.

Hours at both locations are 7 to 9 p. m.

**Furcolo in New Move to Amend Rental Price Fix**

BOSTON (AP)—Gov. Foster Furcolo (D) has called again for amendment of the State Milk Control law to take away from the Milk Control Commission the power to fix prices at retail.

The governor has been carrying on a running feud with the commission ever since he took office in 1957. Prior to that, as a lawyer in private practice, he represented a western Massachusetts milk company which was prosecuted by the milk commission.

The latest proposal, offered Monday, would repeal the commission's pricing powers. In their place, the governor's proposed law would provide for a strong prohibition against sales of milk below cost, and would set up a system for enforcing the ban.

**Stratton Urges New Survey of Flood Check Data**

WASHINGTON (AP)—A new survey of flood control needs along the Mohawk River in the Schenectady, N. Y., area has been requested by Rep. Samuel S. Stratton (D-NY).

Stratton said today he filed his request with the House Public Works Committee at the suggestion of the New York State Flood Control Commission and some Schenectady residents.

The committee has power to authorize a survey.

A survey made several years ago by the Army Engineers said there was no economic justification for construction of flood control works along the Mohawk in the Schenectady area.

"It does seem to me that a new survey is definitely indicated in view of the heavy economic damage which recent flooding has caused," Stratton said.

**Trouble Over Marriage**

REDWOOD CITY, Calif. (AP)—Kenneth Beaver faces petty theft charges because he got married.

Beaver, a 35-year-old painter, married his housekeeper, Nancy Rebholz, whom he had hired to look after a teen-age daughter by his divorced wife.

As long as he was not married he could draw funds for a housekeeper from the San Mateo County Welfare Department. But he failed to notify the department of his marriage and it now charges his collection of \$537 since then constitutes petty theft.

### HISTORY, GREATEST TEACHER

America never has had a great sense of history. As a young, growing, optimistic nation it could see little point in dwelling on its all too brief past. And it has always been sure the present and future would somehow "adjust" to American purposes, both personal and national.

For so long not only fabulously endowed with natural riches but luckily isolated from many major world currents, we were able to live successfully in our peculiar and special detachment.

That isolation is gone now. Increasingly we find the life of the world, the events of history, closing in about us.

We are facing a realization we should have had long ago—that in not attaching ourselves consciously to the stream of history we automatically suffer considerable personal loss and court the danger of much greater loss.

The man or the country which puts itself constantly in the perspective of history gains immeasurably in self-understanding and self-appreciation. How do you really know what you are without knowing what you have been, and how you got to where you are?

But it is only the past, as we have seen, that holds these lessons. We must see ourselves steadily in the tremendous frame of current world history.

These events do not totally limit what we can do, but they are limiting, governing factors. Russia and India and Argentina will do certain things whether we like it or not, and what they do will have great impact on us.

If we know and understand what they are doing, we will have some chance of influencing their course—and thus our own.

Not to try, in the patently foolish notion that in today's shrunken world we can somehow achieve our private and national destinies without regard to what others do, would be to practice a kind of monumental futility.

Robert L. Heilbroner, touching on this in his new book, "The Future as History," sees it this way:

"In an age which no longer waits patiently through this life for the rewards of the next, it is a crushing spiritual blow to lose one's sense of participation in mankind's journey, and to see only a huge milling-around, a collective living-out of lives with no larger purpose than the days which each accumulates.

"When we estrange ourselves from history, we do not enlarge, we diminish ourselves, even as individuals. We subtract from our lives one meaning which they do in fact possess, whether we recognize it or not."

### A LITTLE GIRL'S LIFE

The New Jersey Board of Child Welfare is seeking to remove a brilliant four-year-old girl from the only home she has ever known on the grounds that she is "intelligent" for her foster parents. The board appears to have what it regards as the child's best interests at heart, yet the wisdom of its proposal is open to serious question.

The little girl's foster parents have not adopted her, and have been paid by the state for her care. Nevertheless, the idea of removing her from this home and placing her with other foster parents who are financially and intellectually better able to aid her development seems almost callous.

The state group argues, with logic, that the girl's future is of primary importance. It is said that she requires more stimulation and help at home if her full potential is to be realized. It does seem likely that she could develop more rapidly in a home where reading was stressed more and television less.

But what of the emotional factor? The board concedes that the little girl appears happy and well adjusted. What guarantee is there of equal happiness in another home? How long before she could adjust

## 'These Days'

By GEORGE E. SOKOLSKY  
THE PRIMARIES

The Presidential Primaries in New Hampshire and Wisconsin, and, for that matter, in other states prove very little more than that a particular candidate is popular in that state. It does not establish that the candidates who win will be nominated by the conventions of their parties.

However, such primaries, wasteful and purposeless as they are, do establish a straw in the wind. In New Hampshire, there could be no doubt but that Nixon would win, as there was no competitor. Nevertheless, there is always the other side of the coin: As there is only one candidate, why did so many come out to vote in blistering weather? The only answer could be that the Republicans of that state wished to pay Nixon a compliment.

As for Senator John Kennedy, the New Hampshire Primary serves him well as a public relations promotion. In the historic memory of the American people, the phrase is "As Maine goes so goes the country." It was a symbol. So is the New Hampshire Primary a symbol, even if only because it is the first primary. It is the sign that Spring is not far behind.

There are other factors in this situation that are important to note. New England is not what it used to be. No longer is it peopled by Mayflower descendants or even the descendants of those who came on the second ship after the Mayflower. The population shift, ethnologically and religiously, has been enormous. Puritans and Pilgrims have given way to French Canadians, Italians, Poles, Syrians, Portuguese, Jews, and other races of man. Rhode Island, where once Vanderbilts spoke only to Goetts, has an Italo-American as its United States Senator; Connecticut has a Jewish Governor; the Governor of Massachusetts is of Italian-Irish descent; Maine has a United States Senator of Polish descent.

John Kennedy, United States Senator from Massachusetts, successor to such a one as Henry Cabot Lodge, the elder, is, of course, Irish on all sides and he looks it. The Irish, for some reason or other, often appear to be younger than their years. John's father, Joe, is no spring chicken, being 71 if he is a day, but as one looks at him, he is still a young man, having the time of his life. John, who aims to be President, is 42, going on 43, which is just about like Theodore Roosevelt was when he became President by the accident of an assassination.

The New Hampshire Primary does show one thing, which may be only local but could be interpreted as national. It is that more people are interested in this election than had been anticipated even by professional politicians of long experience. This means that Vice President Nixon must go to work if he wants to be elected. It also means that the polls will not be much of a guide, as the doubtful vote increases when the total vote is larger.

Nixon's problem is that he is a prisoner of Eisenhower policies, but Eisenhower policies shift. Since John Foster Dulles died, the Eisenhower foreign policy has taken a weaker connotation. Whether Dulles was right or wrong, he was, to a degree, predictable; nobody can predict where Eisenhower will go or what he will say. Much of it seems improvisation, although it may not be.

The Republican slogan for 1960 was going to be "Peace and Prosperity." Certainly, Nixon will not be able to employ this slogan, not because peace is evil but because it is taking on the appearance of cowardice. Before next Summer is over, the Summit meeting is likely either to exhibit such weaknesses on the American side as to be disgusting or de Gaulle will assert a leadership which will set Eisenhower aside. In either case, it will make it very difficult for Nixon to speak out.

Nixon first established his reputation as an anti-Communist. He it was, who found the "Pumpkin Papers" that convicted Alger Hiss. He, it was, who defeated Helen Gahagan Douglas in a violent anti-Communist campaign. He, it was, who helped Joe McCarthy in the first stages of the McCarthy investigation. He went to Soviet Russia and publicly stood up for our way of life against Khrushchev.

If Nixon were presently to pose as a middle-of-the-road liberal, such campaigners as John Kennedy and Hubert Humphrey would chew him to pieces.

Are You Guilty of Abusing Great American Stomach?

By HAROLD T. HYMAN, M.D.

Written for  
Newspaper Enterprise Assn.

In nearly every group of diners, there is usually at least one bellyacher. And usually, with little or no provocation, the bellyacher will furnish intimate details of his or her complaints against the offending stomach.

Almost without exception, the bill of particulars will include such terms as dyspepsia, heartburn, water brash, acidity, indigestion, biliousness, weak stomach, sour stomach, bum stomach and the like.

It is quite useless to interrupt the recitation with any statements of facts. Such as that peptic digestion is rarely disturbed until the stomach wall has been almost wholly destroyed. That the heart never "burns." That water brash is a meaningless expression. That acidity is the normal state of the normal stomach. That gastric digestion is not affected unless the organ is the site of advanced destructive disease. That bile function proceeds satisfactorily provided that 10 to 15 per cent of liver cells remain operative.

Before you contribute to the hundreds of millions of dollars that are spent — and mostly wasted — on measures to relieve the "great American stomach," I suggest you look into the possibility that maybe the culprit is the owner and operator of your stomach.

Here, for example, are some of the ways a perfectly good stomach can be abused by its thoughtless possessor:

Gulp down bulky, sticky or coarse food before it's been properly chewed by your teeth and softened by saliva.

Quickly swallow hot or iced foods or drinks if they cause too much discomfort to hold in your mouth.

Load your stomach with as much food as you can possibly get your hands on at each meal, on the theory that the chuck wagon may never call again.

Make liberal use of salt, pepper and condiments on all foods before bothering to taste them. That way you'll never know if they're of good or poor quality and/or if they've been properly prepared.

Eat on the fly. You can't make up time but you can always buy stomach "remedies."

If it's a business meal, gobble what's put before you without giving the food thought or consideration. Customers are sometimes hard to get but there are plenty of all-night eateries.

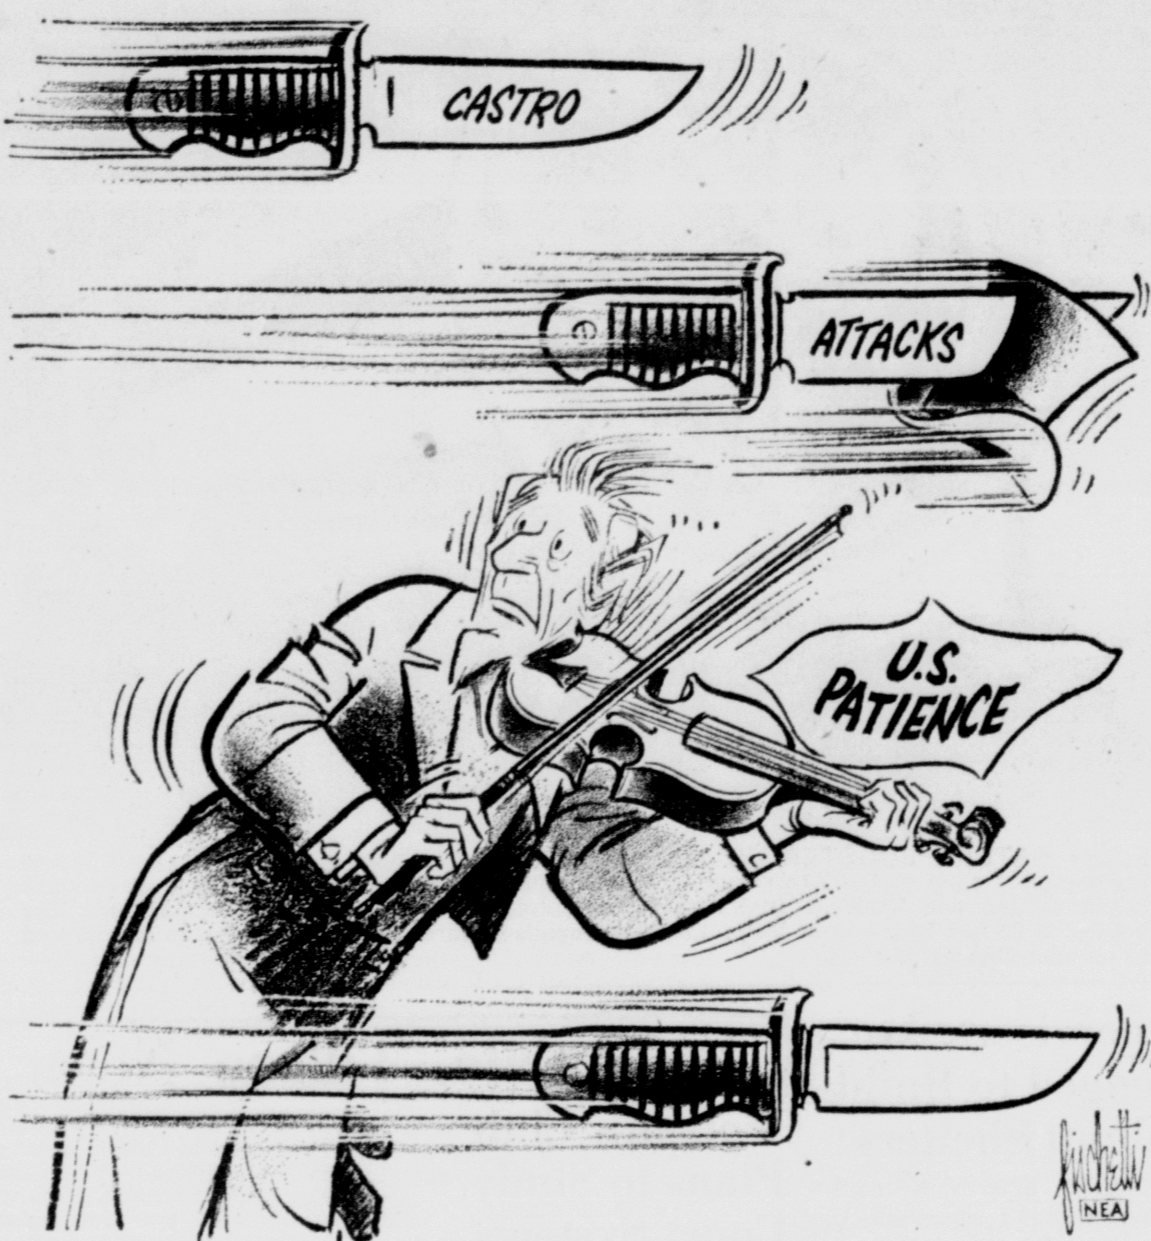

If it's a home meal, there's no better time to settle family disputes. Everybody's together and the TV set's been turned off. So let's have a family row.

Next, I'll have some suggestions for a be-kind-to-your-stomach campaign.

to the new situation? Might not the emotional shock turn this bright, happy child into an unhappy and insecure one?

Intellectual development, though unquestionably of great importance, is not all. Let us hope that the child welfare board will proceed with great care, and will give full weight to considerations of both mind and heart.

## Washington News

BY PETER EDSON  
Washington Correspondent  
Newspaper Enterprise Assn.

WASHINGTON — (NEA) — What foreign governments and people think of the civil rights filibuster in the U. S. Senate can only be imagined. Perhaps it is incomprehensible. Certainly it is at times difficult for even Americans to understand.

The filibuster is defended as good democratic practice to protect a minority. In this case, actually, it is a southern white minority that is trying to keep from being run over. The Senate is held up as the last refuge of unlimited debate. Only if two-thirds of the members present and voting agree to cloture can Senate debate be limited and eventually cut off. These are some of the things Americans abroad have a hard time explaining.

But the bad side of filibustering is that it slows down and prevents the making of much needed decisions.

CONGRESS AND THE PUBLIC constantly criticize the executive branch of government for its frequent inability to make decisions. Decisions on how the missile and space programs should be run. Decisions on what U. S. disarmament policy should be. Decisions on how to deal with Russia, Cuba, the Near East, Latin America or Red China. Decisions on how to cut waste and inefficiency in military expenditures, foreign aid programs and general government operations.

This inability of a government to make up its mind in due time often leads to serious consequences.

THE MOST STRIKING EXAMPLE of recent times is the French Fourth Republic of 1946-58. The instability of the French government, its inability to reach decisions, fi-

nally led to its downfall. The underlying causes may have been too much power in the hands of minority parties and hamstringing action by divided majorities, unable to lead.

To correct this inherent weakness in their government, the French had to call in a strong man—General de Gaulle. He became premier and the president of France, under a new constitution which reorganized the government so that it could make decisions. It was a natural consequence.

Carried to extremes, the ability to make fast decisions gives dictators an advantage over democracies.

Russia's Khrushchev goes to Indonesia and gives that tottering government a 200-million-dollar credit. First Deputy Anastas Mikoyan goes to Cuba and gives Castro a 100-million-dollar credit. Life that.

For the United States to make similar gestures, there would first have to be extensive surveys, months of negotiation and probably a Congressional investigation later.

THE TEST FOR DEMOCRACY in this day and age, if it is to avoid dictators and still compete with communism, is that it must be able to make decisions with minimum confusion. This applies to the legislative branch of government as well as to the executive and the judicial branches.

Sen. Henry M. Jackson (D-Wash.) chairman of a government operations subcommittee on national policy machinery, has just started a series of hearings on the weakness of the executive department in this respect. These hearings will be continued during this session of Congress.

There will be a series of reports throughout the year. Anything they can accomplish to improve government administration and get

better and faster decisions will be a gain.

BUT THE OTHER SIDE OF THIS COIN is that the legislative branch has a responsibility to improve its decision-making procedures, too. Proposals to improve the judicial branch of government and speed up justice, for instance, have been before the Congress for over a year without action.

And when the Senate and House get themselves snarled up over civil rights legislation, they are but demonstrating the weaknesses of democracy in making decisions.

This is no example to hold up to the many new nations of the world, now struggling to decide whether they should be governed by dictators or democracy.

### Foreign Policy To Be Discussed At Joint Meeting

NEW PALTZ — The Current Events group of the New Paltz adult education program and the foreign policy workshop of the League of Women Voters will hold a joint meeting at the high school library here Tuesday, 8:30 p. m. The meeting is open to the public.

Two films will highlight a discussion of the U. S. foreign aid program. The films are "The Fishermen of Quintay," which deals with multilateral aid for Chile through the United Nations technical assistance program, and "They Planted a Stone," which shows how irrigation and construction programs planned and financed by the British cotton industry transformed a desert in the Sudan.

Louis Le Fevre and Martin Lapan of the current events group and representatives from the women's league will participate in a discussion after viewing the films.

## Talmadge Views Are Quoted On Civil Rights 'Other Side'

By DAVID LAWRENCE

WASHINGTON — Much has been heard lately from the so-called "liberal" side about the need for "balanced programming" on television, but something happened the other day which indicates that maybe the broadcasters are doing better than the press in the "balancing" technique.

Just a week ago Sunday, for example, many persons heard a dramatic and informative debate on "Meet the Press" over the National Broadcasting Co.'s TV network and watched Sen. Herman Talmadge, (D., Ga.) do a masterful job in presenting his viewpoint on the "civil rights" issue. But how much of it was printed in most metropolitan papers of the North? Virtually nothing.

The Georgia Senator made some good points which still are news to many readers. What he said represents the "other side" of the controversy, and most Americans like to hear or read both sides. Asked what could be done to insure the right to vote, Sen. Talmadge held up a sheaf of papers and said in part: "Here are seventeen pages of Federal laws that guarantee every citizen in America the right to vote."

"Now in my own state we have approximately 175,000 to 185,000 Negroes who are registered and who do vote. They have elected officials within my state. Frequently they are the balance of power in mayor's races and local races of all kinds. The Negroes in Georgia do vote in very substantial numbers. In some counties in Georgia we have a greater percentage of Negroes registered than we have of the white population. In three counties in Georgia we have more Negroes registered and voting than there are white people."

All citizens who are qualified have been encouraged to vote. We can't help it if some citizens don't exercise that right. My colleague, Sen. Russell, inserted in the Congressional Record this past week a statement by the leader of the National Association for the Advancement of Colored People in Cleveland, Ohio, which stated that only 25 per cent of the Negroes in Cleveland were registered, and of that 25 or 26 per cent only about 25 or 26 per cent of them voted. Now, we have a much higher percentage than that who are registered in Georgia and a far higher percentage vote in Georgia."

The Georgia Senator was then reminded that, according to the United States Civil Rights Commission, there were twenty-two Georgia counties where less than 5 per cent of the Negro population believed to be eligible was registered. He replied that there were adequate remedies, and added:

"First, any citizen who thinks that he is being illegally deprived of the vote can go into the Federal court, he can get an injunction, he can recover damages against the registrar."

Criminal Law, Too  
"Second, there is a criminal law. He (the registrar) can be indicted, he can be convicted and sentenced to the Federal penitentiary and fined. And, thirdly, there is the Civil Rights Act of 1957 that authorizes this group to have the Attorney General of the United States of America file a suit in the name of the United States of America as their tax-paid private lawyer to enforce their rights. Now, if those remedies aren't sufficient, there are no laws on the face of the earth that will be."

Then why did the Attorney General write a letter this week urging the House of Representatives to restore the section of the "civil rights" bill that was voted down by the Senate a few days ago? The answer is that politics is back of it all.

The moment Sen. Lausche of Ohio, a courageous Democrat proposed that the principle of "equal justice under law" be applied so as to provide criminal penalties just for violations of court orders on school desegregation but also for violations of court orders relating to picketing and violence in labor disputes, a Northern group of Senators promptly voted against it. They were plainly afraid of the reprisals from the labor-union vote.

The Attorney General, moreover, in his latest communication to Congress, writes that, while the right to vote is of fundamental importance to the Negro, "this thought should not full any one into forgetting that, meanwhile, the Federal government has a responsibility in other civil rights matters, including the duty to enforce court orders in school desegregation cases."

Refers to Little Rock  
The Attorney General then makes an unhappy reference to what happened at Little Rock in 1957, and declares that the section deleted by the Senate and now up for passage in the House is designed to prevent a recurrence of the situation which, he says, required the use of Federal troops. He adds:

"At the present time, when state officials fail to maintain law and order, the Federal government, as a practical matter, has no certain or very effective way to deal with mob violence except by the use of Federal troops."

Is this really so? The State of Arkansas did order its militia to maintain order and prevent mob violence, but the Federal government obtained a court injunction which ordered the Governor to withdraw the militia. Then mob violence did ensue.

What the Attorney General is saying about the need to enforce court orders on school desegregation would be received with more enthusiasm if the Department of Justice had not remained strangely inactive in recent months when labor-union pickets were refusing in many strikes in northern states to allow non-union workers and management personnel to enter plants where they wanted to work. So long as there are these examples of hypocrisy in government, there will be little tendency to regard the present ruckus about enforcing court orders in "civil rights" cases as little else than a brazen attempt to win an election by wooing Negro votes in the North.

## Believe It or Not!

## matter of FACT

One way to get the low-down on people at the office is to join the gossips at the water cooler. Rumors just seem to breed at drinking fountains. In the old days of the sailing ships a scuttlebutt was the barrel that held the day's ration of water. Even now in navy slang, "scuttlebutt" means rumor or gossip. And scuttlebutt is still the name of the ship's drinking fountain where the gobs now go to gab.

## DO YOU REMEMBER

By SOPHIE MILLER

I received a nice note from Pauline Hommel, author of "Tea Cup Tales" and she writes that she is working on another book along this line. Miss Hommel like so many others has been ill with the virus this winter and is still weak from it.

Miss Hommel is a teacher, writes she has two kindergarten classes, which no doubt means some 50 very lively youngsters full of energy demanding her time and interest that is why she feels her manuscript has not been touched all winter.

Writing is not as simple as some folks think, there are times that one's mind is dry and one is just empty of thoughts. I always admired newspaper people for that reason, that they get the daily newspaper out, in spite of how they feel and how little news there may be around.

She also writes that Francis C. Wolven of Saugerties called her the other evening, about having written to me describing the Mt. Marion Hotel. He promised Miss Hommel that when the nice spring weather comes, he and his wife will take her along for a walk up there. Perhaps Miss Hommel will find a story in the Mt. Marion Hotel. You see how one piece of information leads to another.

Miss Hommel further writes: "We diggers into the past are more than just folklorists. We are discovering for future generations how much we owe to the folks of yesteryear."

I have mentioned her book "Tea Cup Tales" several times and I think it is especially in-

teresting to those who like a book of short mystery stories. It is about our own section. The stories will interest young and old, and I am sure makes an excellent gift for folks who have everything. A book is such a lasting gift.

Whenever the Mary Powell is mentioned it always brings response. Someday I must get details on how it felt to live in the winter on the Mary Powell, from Cornelius E. Keyser of 100 Grand Street. Mr. Keyser spent winters on the Powell and also the Henry Hudson when she was docked in New York. There, he writes, he had a large kitchen and bedrooms for himself and two men. It would be interesting to keep a diary, like "Living on the Mary Powell in the Winter." There are enough people who remember the famous Queen of the Hudson to be interested in such details. Mr. Keyser and his staff did repair work in the winter, like painting and carpentry work and of course guarded her.

He also writes about the famous Day Line boats he worked on, and when they would dock at Kingston Point Park there would often be from 2,500 to 3,000 people get off and some would take the Ulster and Delaware train up to the Catskill Mountains for the summer. He says the season was long, from May 15 to the end of October. There were eight large Day Line boats running on the Hudson, and no doubt all had plenty of passengers. He is looking forward to another trip this summer as they had in 1959.

This question comes up very often. "When did the Powell make her last trip?" It was Sept. 10, 1917 and she was dismantled in 1922. John Fischer bought the Mary Powell and dismantled her. He kept parts to make bungalows. I do not know what is left of her now, except perhaps relics in various museums. For five years she was still in existence after her last trip. That was the time to preserve her forever. The youth of today will never believe what a graceful beauty the Queen of the Hudson was, so silent and so swift.

Continuous membership cards will be awarded to a number of Legionnaires who have attained their five, 10, 15, 20, 25, 30, 35 and 40th years of continuous membership.

## Giant Mirror Will Be Used to Get Planet Photos

CORNING, N. Y. (AP)—A 450-pound fused silica mirror, the largest of its kind ever made, will be part of a telescope used next year to obtain photographs of the planets from 16 miles aloft.

The Corning Glass Works revealed details of the mirror Monday.

The mirror will be the primary reflective piece in a 36-inch telescope to be used in project Stratoscope II.

The telescope will ascend in an unmanned balloon to obtain photos without interference caused by the earth's atmosphere.

A 12-inch telescope used in Project Stratoscope I provided the clearest pictures yet made of the sun.

Corning said fused silica was used for the new mirror because sudden temperature changes will not alter its shape, and cause distortion of images.

Princeton University is conducting the Stratoscope II project with funds from the National Science Foundation, the office of Naval Research and the National Aeronautics and Space Administration.

## Today's Business Mirror

By SAM DAWSON  
AP Business News Analyst

NEW YORK (AP)—The good news today from Washington that February saw a drop in the jobless total and record highs for that month in employment brings up two questions:

1. Has the trend lasted up till now or has it been reversed this month?

2. How can the government tell how many are out of work and how many drawing paychecks?

On the first point, the sampling of employment and unemployment was taken in the middle of February. Many of the industrial layoffs that have been publicized have come since then.

To evaluate the official report as an indicator of business trends, remember:

The slowdown in a few industries has involved some plant shutdowns but perhaps in many more instances a pruning of the work week. These workers aren't out of a job, they are just getting less pay at the end of the shorter week. And they still are listed on the government's employment estimate.

In assaying its figures on employment, the government takes into account seasonal factors. For example, unemployment in January was higher than in December. The temporary workers with pre-Christmas jobs in stores, the

post office and the like, were looking for work again.

This usually holds over into February, influenced largely by bad winter weather which takes a toll of outdoor jobs—except for snow removal crews in the cities.

But Secretary of Labor James P. Mitchell, speaking of mid-February, assures you that this time there was "a decrease in unemployment, which is quite unusual for this time of the year." And he has high hopes for large employment totals every month this year.

This could help quiet jittery nerves in Wall Street and soothe businessmen wondering how much they should order, how

much they should spend for inventories, new equipment or new plants.

The government's figures on the jobless and the employed are estimates. It admits it can't poll everyone every month.

What it does is take a sampling, and then check this against some other reports it gets from industry and from state agencies.

Its own sampling involves visiting 35,000 homes each month and asking how many in the family are employed and how many are looking for work without finding it. These go into the total of employment and unemployment. And the total of both is called the nation's labor force.

## Jack Resumes

Jack and Hogan are Democrats. Culin's decision held that the conspiracy phase of the indictment was improperly linked with the charges of conflict-of-interest under the city charter. These, he said, should have been set forth as separate crimes.

Jack's lawyer, Carson D. Baker, said of the decision: "I consider it good law. It is the law of the state."

The counts were all misdemeanors, each punishable by a year in jail.

Jack claimed the money received from Ungar was a loan, but the state charges it was linked with Ungar's effort to get the slum clearance project. Jack also was accused of conspiring with Ungar to cover up the deal.

Ungar was granted immunity from prosecution when he went before the grand jury to testify. He was named in the indictment as a co-conspirator, but not as a defendant.

## Hope Ebbs . . .

choice the men could have made. The rescue team sent out to reach the third area—100 feet deeper in the mine—was told to check the barricade at its entrance for signs of the men but not to break any seal which might be protecting the trapped men from deadly fumes.

Hope was running high Monday when one crew finally reached the goal workers had been striving toward for more than six days—an underground room where the men might have taken refuge.

No one was there. It was empty except for the objects here and there.

One week ago today the 18 were trapped at work as the rocky roof of their tunnel tumbled down, igniting a stubborn fire which is still smoldering.

Rescuers struck out for a larger room 1,200 feet deeper into the mine. There was no official word on how long it might take to get there.

## Dr. Hogan to Leave Comptroller's Staff

ALBANY, N. Y. (AP)—Dr. John D. Hogan, author of a plan before the Legislature to permit federated school districts, will leave state service in June.

Hogan is research director of the Department of Audit and Control at \$14,000 a year. Prior to joining the comptroller's staff a year ago, Hogan was employed for a year by the State Education Department. While there, he established an educational finance research section and drew up the federated school district proposal.

Under the plan, presented by Gov. Rockefeller, school districts could federate to levy non-property taxes to raise funds for schools.

## Plattekill Man Hurt as Auto Strikes Stone Wall

Joseph Candelario, 34, of Sunny Acres Road, Plattekill, suffered concussion and was treated at St. Luke's Hospital, Newburgh, late Monday afternoon for injuries which he sustained in an automobile accident. He was later released.

Highland State Police reported Candelario was injured when a car operated by Ismael Martinez of Sunny Acres Road, Plattekill, struck a stone wall and overturned when the operator lost control at an intersection. Troopers who investigated said Martinez attempted to put his foot on the brake but apparently missed it, allowing the car to strike the stone wall.

The accident happened about 5:30 p. m. Monday. No other car was involved and there was no arrest.

TRENTON, N. J. (AP)—The New Jersey Legislature has given up on the Philadelphia Phillies. The Assembly Monday repealed a 1959 law designed to lure the Phillies to a proposed multimillion-dollar stadium near Garden State Race Track in Camden County.

## Mid-Week Lenten Services

The third Mid-Week Lenten service of Trinity Lutheran Church, Spring and Hone Streets, will be held on Wednesday, March 16 at 7:30 p. m. This is the third of a series of Lenten services which will continue until Easter. As is in keeping of the historicity of the church, there will be the reading of a part of the History of the Passion of our Lord at each of these services. The Pastor, The Rev. Frank Lawrence Gollnick, will preach on the general theme, "Our Lord Took the Cross." His sermon topic will be "He Was to be Betrayed by Man." The Rev. Albert H. Shultz will be assisting the pastor during the Lenten and Easter season.

As has been the custom in the past years, there will be a special quiet time during the general prayer for individual petitions on the part of the congregation. The service will close with "The Old Rugged Cross" sung by John Amarello. A special musical program has been arranged by Mr. Donald Romme, M.A. Minister of Music. Prelude—Two Preludes—E minor and D flat major—Chopin and the Anthem—"Greater Love Hath No Man"—Mueller.

The public is cordially invited to attend this service.

The Senior Choir will hold its regular rehearsal immediately after the church service.

## Redeemer Lutheran

Tomorrow evening at 7:30 o'clock, the congregation of the Evangelical Lutheran Church of the Redeemer will gather in the sanctuary for its mid-week Lenten service. Preceded by traditional Lenten hymns on the tower

chimes, the vesper service will include the reading of the second section of the History of the Passion, a penitential psalm and a meditation by the pastor, the Rev. David C. Gaise, DD, on the topic "The Light of Lent." The service will close with special intercessory prayers.

Organ music to be played by Mrs. Lester Decker will include I Call to Thee, Lord Jesus Christ by Bach; Hollins' "Prayer"; and Gothic March by Fochschli. The senior choir will sing "Jesus, Word of God Incarnate" by Gounod, under the direction of Leonard Stine.

Following the service, the monthly meeting of Redeemer Women's Club will be held in the parish house, featuring a special Lenten program and discussion led by the pastor. The senior choir will also rehearse in the chancel after the service.

Visitors may attend the Lenten services at Redeemer.

St. Paul's Lutheran

The third in a series of messages from the Gospel of Matthew on the general theme of "The Cross and Life" will be given in St. Paul's Lutheran Church, 355 Hasbrouck Avenue, Wednesday, 7:30 p. m.

The pastor, the Rev. Olney E. Cook, will speak on "Life's Great Rule." The service will begin with the vesper service, one of the penitential psalms, followed by the "Passion History," Part III.

The traditional Lenten hymns will be used, and the choir under the direction of Herman LaPorte will sing "The Old Rugged Cross" by Bennett. After the closing vespers, there will be a moment of silent prayer, followed by the Benediction.

## Financial and Commercial

NEW YORK (AP)—Steels, motors, chemicals and electronics did well as the stock market widened initial gains in moderately active trading early this afternoon.

Advances of from fractions to well over a point were scattered throughout the list of pivotal stocks. Some of the higher-priced or more speculative issues did even better.

The market was up irregularly at the start and caution was apparent. Late in the morning the steels moved ahead solidly and the rest of the list followed along. Hopes of the end of bad weather would boom auto sales gave rise to talk of a spring rally. The four-day consecutive rise of the rail average also was encouraging. There was some gossip to the effect that mutual funds were doing some buying.

The Dow Jones industrial averages at noon was up 3.62 to 610.41.

## SAUGERTIES NEWS

## New Jail Setup Recommended

## In State Report

A proposal to combine the jail and police headquarters in one building was one of four recommendations to village officials in a report of the State Commission of Correction released today.

The report was the result of an inspection by Richard E. Woodard, senior inspector of the department on January 25.

His report said the detention facilities used by the village and owned by the township on Russell Street are located some distance from police headquarters, thus making it difficult to properly supervise prisoners.

Three other minor recommendations were made.

Mayor George P. Holmes referring to the report said that prisoners for major crimes are dispatched to Ulster County Jail for detention. Only vagrants and public intoxication cases are detained in the local lockup he said.

Mayor Holmes said the village has been making long range plans for some time to enlarge police headquarters and possibly provide a lockup in the municipal building. He said however, any changes contemplated must wait until funds are available.

## In the SERVICE

### Participate in Germany

Three Ulster County servicemen recently participated in Exercise Winter Shield at Grafenwohr-Hohenfels training area in southern Germany.

Pfc John L. Wallace, son of Mr. and Mrs. Leslie Wallace, 148 West Pierpont Street, Kingston, participated with other personnel from the 30th Transportation Company.

Pfc Louis L. Bush, 19, son of Mr. and Mrs. Lloyd Bush, Pine Street, West Hurley, participated with other personnel from the 4th Armored Division.

Specialist Four Edwin E. Nelson Jr., whose parents live on Route 1, Wallkill, participated with personnel from the 3rd Armored Division.

Winter Shield, an annual Seventh Army winter maneuver, involved 60,000 troops.

Pfc Wallace, a mechanic in the company in Hanau, entered the Army in May 1958, completed basic training at Fort Dix, N. J., and arrived overseas the following October.

The 24-year-old soldier is a 1953 graduate of Davidson High School in Kings Mountain, N. C., and was employed by Kingston Hospital, before entering the Army.

Pfc Bush, who arrived overseas last April, is a driver in Troop D of the division's 15th Cavalry in Schwabach.

The former Kingston High School student entered the Army in October 1958 and completed basic training at Fort Hood, Texas.

Sgt. Nelson entered the Army in March 1958, completed basic training at Fort Hood, Tex., and arrived overseas the following September. Nelson is assigned as a tank driver in Troop B of the division's 12th Cavalry in Budingen.

The 24-year-old soldier is a 1953 graduate of Wallkill Central High School and a 1955 graduate of Delhi Agriculture and Technical Institute.

**In Training**  
Army Pvt. Richard E. Peck, son of Mrs. Eva M. Peck, Saugerties, is receiving eight weeks of advanced individual artillery training at The Artillery and Missile Center, Fort Sill, Okla. The training is scheduled to be concluded April 7.

Pvt. Peck is being trained in the duties of a cannoneer in a 105 millimeter howitzer section. He entered the Army last November and received basic training at Fort Benning, Ga.

**On Academy List**

## Area Hospital Volunteers Set All-Day Session

Approximately 175 volunteers who work in hospitals in the Northeastern Region of the New York Hospital Association, will convene for an all-day semi-annual meeting at the Mohawk Golf and Country Club Tuesday, March 22.

Registration at 10 a. m. will precede an open discussion on the topic: "Does the Size of a Hospital Restrict the Scope of Its Volunteer Services?"

Serving as moderator of the discussion will be Mrs. John Dardess, Chatham, member of the executive committee of the N. Y. Auxiliary Conference. Members of the panel will be: Dr. George W. Graham, administrator, Ellis Hospital, Schenectady; Cecil C. Frantz, administrator, Mary McClellan Hospital, Cambridge; Dr. Thomas Hale Jr., director, Albany Hospital and Mrs. Sigmund Bergman, former president of Columbia Memorial Hospital Auxiliary, Hudson.

"Atoms for Peace" will be the subject of the luncheon guest speaker, Charles P. Malone, physicist and radiation protection specialist of the General Electric Research Laboratory and the Knolls Atomic Laboratory.

There's a limit to what a Valiant wagon can carry. Not more than 72 cu. ft. of the things you need around the house. Things like kids' bicycles, a freezerful of groceries or enough do-it-yourself supplies to build a small Taj Mahal in your back yard. Or other things, like you, your wife and up to seven kids (not necessarily all of them yours, because you'll be pestered for rides by every kid in the block). And that's the size of it. Only 72 cu. ft. of room.

Valiant's inclined engine doesn't run on diesel fuel, either. Just plain old regular gasoline—and not very much of it. Another thing. Valiant has a rattle-proof, rust-proof unitized body—pound for pound, as tough as you can get. But to say that Valiant's a heavyweight would be stretching your imagination just a bit.

On the other hand, you must admit that Valiant does have advantages. It fits lots easier into your garage and into small parking spaces. Plus, it almost runs on carfare. And it looks quite a bit better standing in your driveway—and every other place, too.

But you decide. We think we know which you'll pick, once you see your nearest Valiant dealer (you'll find his name and address at the bottom of this ad). And by the way—if you want to call Valiant "our family bus", it won't mind a bit. And we won't, either. Because you'll call it that with lots of respect—and even more affection.

## 1,386 Attend Local Jehovah's Witnesses Parley

Jehovah's Witnesses, joined by Kingston residents, swarmed into the municipal auditorium by hundreds Sunday afternoon for the final program of the three-day Watchtower convention.

By actual count 1,386 gathered to hear Frank Spacil, district supervisor from the Watchtower world headquarters, Brooklyn, deliver the key address "Finding Peace in This Troubled World."

"Man can split the atom, send rockets into space, conquer deadly diseases, yet is unable to find the solution of how to live together in peace," the speaker said. "Peace will come," Spacil declared, "but not through the schemes and efforts of man. It will come through God's Kingdom by Christ as the angels sang at Jesus' birth."

To establish how individuals will benefit from this government, he quoted a Catholic translation of the angels' song, "Peace on earth to men that are God's friends." Citing the Bible text, Mr. Spacil explained that in order to be God's friend and have peace, man must strip off the old personality with its harmful practices of strife and hatreds and clothe oneself with a new personality.

District Supervisor Spacil also officiated at the highlight of Saturday's program, the baptism of 27 new ministers. Area residents baptized were Janet Busch, Sandra Lancher, Lottie Hollenbeck and Julia DuBois.

Mrs. DuBois lives at 62 Summer Street with her husband, Neil, and children, Gary 9 and Cheryl, 5. She attributed her progress in Bible knowledge to the weekly study conducted by Walter Carter, an assistant presiding minister of the Kingston congregation, and the five weekly study classes conducted by the local congregation. Although she was first contacted by Carter only a year ago, she advanced in teaching techniques so that she was able to bring one of her students to this first assembly.

Saturday night an audience of 1,081 watched a demonstration of ten essentials for teaching at Bible studies.

The final sessions included a talk by Circuit Supervisor R. H. Brandt on "Be Filled With Spiritual Discernment" and parting remarks by Mr. Spacil, who exhorted conventioners to heed what the Apostle John wrote in his first letter, concerning true Christian love.

## Apple Product Research Subject of Conference

GENEVA—Fruit growers, food processors and Cornell scientists engaged in research relating to apples will assemble at the Experiment Station Wednesday, to review research under way with apples and to discuss needed lines of investigation.

The one-day conference is sponsored by the New York State Canners and Freezers Association, the Western New York Apple Growers Association and the Experiment Station. All interested persons are welcome to participate.

The morning program, starting at 10 o'clock, will begin with a summary of what is going on in apple research within the College of Agriculture by Dr. A. J. Heinicke, Director of the Experiment Station.

Charles E. Palm, Dean of the College of Agriculture, will review "Current Developments and Safe Use of Pesticides," to be followed by a discussion of "Quality and Yields of Apple Products in the Processing Industry" by Dr. James C. Moyer of the Station's Department of Food Science and Technology.

Development of new varieties of apples and varietal trends with relation to the processing industry will be reported by Dr. John Einset of the Station Pomology Department.

## Bill Would Tighten 'Rigging' Penalty

Passed by both the Senate and Assembly and now on the desk of Governor Rockefeller awaiting his signature is legislation which would increase the penalty for individuals or firms which seek to "rig" public bids.

This legislation is the direct outcome of the Ulster County "kickback" probe being conducted by former Queens Senator Bernard Tompkins.

The legislation would increase the penalty from the present maximum of a year in jail and, or, a \$500 fine to a year in jail and, or, a \$5,000 fine for an individual and a fine not to exceed \$20,000 for a corporation found guilty of conspiring to rig public bids or act in a fraudulent or collusive manner to affect bidding.

### Troop 130

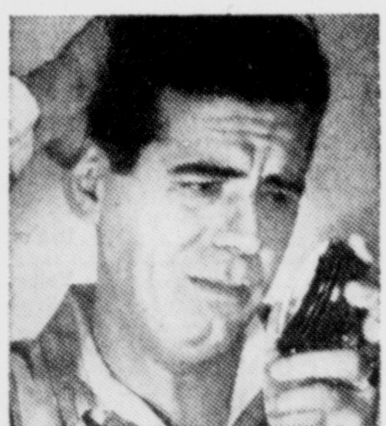

Nine Boy Scouts of Troop 130 of Saugerties participated in a bike hike Saturday, under the supervision of Robert Gardner, outdoor activities chairman, and Charles Walton.

Their trip began at the police station at an early hour and proceeded along the Old Kings Highway to Leeds, Kiskatom and Palenville, and return, a total of some 27 miles. This is the first of "conditioning hikes" preparatory to the 100-mile bike hike the troop intends to make over the Memorial Day weekend, which will qualify the boys for the cycling merit badge.

Those completing the trip on Saturday were Steven and Alan Gardner, Joel Walton, Jeff Olinger, Michael Quick, David Lewis, Edward Pavlinik, Charles Daley and Joseph Barber.

A father and son banquet will be held Sunday, March 17, at the Methodist Church Hall, Washington Avenue, Saugerties, for the boys of Scout Troop 130, sponsored by the VFW and their fathers, in observance of the 50th anniversary of scouting. The Mothers Auxiliary of the troop will prepare and serve the dinner.

Technicians Are  
Reported as Good,  
Exposed to Rays

By THE ASSOCIATED PRESS  
ROCHESTER, N. Y. (AP)—The condition of six civilian radar technicians exposed to radioactive rays from a high-energy radar tube has been reported as good.

The men, all patients at the University of Rochester medical center, still must remain at the hospital for at least 10 days, a physician said Monday night.

Nine men were exposed to rays from a klystron tube at the Lockport Air Force station last Thursday. Three have not been hospitalized.

A spokesman at the medical center said the six men under observation were eating well and were impatient to go home. They were not being given any particular treatment, he said.

The center is engaged in research on the biological effects of radiation. Scientists working on an atomic energy project at the university are consulting in the case.

At the medical center were: Kenneth Sahl, 23, North Tonawanda; Edward Legeman, 31, Newfane; James P. Randolph, 27, Lockport; Dennis F. Murray, 24, Wright's Corners; and Giles Ledford, 30, Lockport, all in Niagara County, all employees of the Philco Corp.; and Julius E. Petrisson, 59, Williamsville, Erie County, an employee of the General Electric Co.

The men were doing maintenance work on the klystron tube, an Air Force spokesman said Saturday, and had removed a lead shield covering that usually encases it.

The quantity of roentgens (radiation units) radiated by the exposed tube has not been determined, the Air Force spokesman said. From 400 to 500 roentgens is considered a lethal dosage, he said.

Film Stars Remain  
Active as Strike  
Idles Cinema Work

HOLLYWOOD (AP) — How do movie stars on strike spend their extra leisure time?

A spot survey shows some following typically glamorous pursuits. For others, the sudden break in film work has made possible long-awaited family reunions.

The idled performers for the most part are active—even if it is only the business of relaxation.

Rock Hudson is off on a cruise at the helm of his yacht.

"You can reach me by radio when the strike is over," he told his agents.

Shirley MacLaine flew to Japan to visit her husband, Steve Parker, who spends most of his time there producing movies.

Simone Signoret, the French actress up for an Academy Award in "Room at the Top," holds court every lunch hour in the polo lounge of the Beverly Hills Hotel, meeting Academy voters.

Elizabeth Taylor, another Oscar favorite, took off for a holiday in Jamaica with husband, Eddie Fisher. Both were appearing in "Batterfield 8" when the strike suspended production.

Peter Lawford is studying for his final citizenship test. He wants to vote next November, he hopes, for his brother-in-law—Sen. John F. Kennedy (D-Mass.).

Of the "Let's Make Love" cast, Marilyn Monroe flew to New York; Yves Montand is helping his wife, Miss Signoret, in her Oscar campaign, while England's Frankie Vaughan is cutting records.

Shelley Winters, another Oscar nominee, took her husband back to New York with her. Anthony Franciosa was appearing in "Go Naked For the World" when the strike stopped that movie.

Bing Crosby, an expert at leisure, went to New York to do the Perry Como TV show.

Gina Lollobrigida journeyed to Toronto to take a look at her new Canadian home.

Charlton Heston is using the time to plug openings of "Ben-Hur" in Washington and Tokyo.

Wesleyan Service Guild met last Tuesday evening at the home of Mrs. Marie Winters, instead of at Mrs. Eleanor Winters as previously planned and announced.

The president, Mrs. Eleanor Winters conducted the meeting and the continuance of the study on women of the Bible. The subject, Rebecca was in charge of Mrs. Ethel Hyatt.

Others present were Mrs. Jean Crites of Ireland Corners; Mrs. Florence Hyatt of Clintondale; Mrs. Eileen Riley of Ardonia; Mrs. Marian Jensen, Mrs. Alice Lofink, Mrs. Celia Tice, Mrs. Muriel Ward, Mrs. Evelyn Abbott and Miss Mary Watson.

It was announced that Miss Dorothy Olree of Highland, a teacher in Plattekill School, will show slides of Europe and Hawaii at the next meeting of the club Wednesday, April 13 at 8 p. m. in the school.

Refreshments will be in charge of Mrs. Carrie West and Mrs. Wilda Palen.

Attending Wednesday night's meeting were Mrs. Minnie Smith, Mrs. Shirley Fowler, Mrs. Wilda Palen, Mrs. Wanda Coy, Mrs. Carrie West, and Modena School principal-teacher, Mrs. Katherine Van Vliet of New Paltz.

Refreshments were served.

Mrs. Nelson Hedges and Mrs. Burton Ward will be hostesses at a meeting of New Hurley Missionary Society Thursday at 2:30 p. m. in New Hurley Reformed Church Hall.

Mrs. Ward will also have charge of the two-fold program on migrants and racial relations.

## PSC Rules

Inadequate Tree  
Trimming Cause  
Of Utility Break

ALBANY, N. Y. (AP) — Inadequate trimming of tree branches was the major cause of a prolonged break in electric service last December in the Hamburg-Orchard Park area of western New York, the Public Service Commission said today.

The weight of ice and sleet on the branches broke them and sent them crashing into power lines, which snapped under the pressure.

The PSC said service in the area was interrupted for over 73 hours.

Several other areas of western New York suffered power losses as the result of storms late in December. The commission said 416,707 customers were affected.

The PSC said 35 complaints against power companies had been received as a result of the power failures, 22 from the Hamburg-Orchard Park section. New York State Electric & Gas Co. serves the area.

The PSC said its investigation showed that "inadequate tree trimming was the major reason for the length and duration of the interruptions" but conditions also were "aggravated by the severity and character of the storm and weather."

Will Continue His  
Fight to Keep  
Camp Drum Open

WASHINGTON (AP) — Rep. Clarence E. Kilburn (R-NY) says he will continue to press for year-round operation of Camp Drum, near Watertown, N. Y., despite the Army's rejection of the proposal.

Kilburn made public Monday a letter from Brig. Gen. H. A. Gerhardt, deputy chief of Army legislative liaison, that said the Army planned no changes in its operation of the base.

Kilburn said the Army planned to transfer 5,000 men from Fort Devens, Mass., to Camp Drum this spring for training. He said this pointed up the need for another all-year training camp in the northeast.

But Gerhardt said the scheduling of such training at inactive installations was not unusual.

The general wrote that "The current Army requirement for active installations in the United States does not justify the activation of Camp Drum nor does utilization of that installation as now contemplated require its expansion."

The camp currently is closed during the winter.

Kilburn said New York congressmen have endorsed unanimously his proposal that the camp be kept open all year.

The Army values the land, buildings and improvements at Camp Drum at \$2 million dollars, Kilburn said.

**Bus Boost Approved**

ALBANY, N. Y. (AP)—Riders of the Lockport Bus Lines will pay more for 10 and 12-ride commutation tickets, beginning today.

The Public Service Commission Monday approved price increases expected to produce \$1,300 additional revenue annually. There will be no change in cash fares on local and interurban routes.

The cost of 12-ride, 7-day tickets will be 5 to 40 cents higher, on the basis of zone travel. The 10-ride, 6-month tickets will be \$1.35, instead of \$1.30.

The company operates local routes in Lockport and interurban routes to Niagara Falls, Jedd, Olcott and Wilson, all in Niagara County.

## Solons Unconcerned

Feel Hoffa Move  
May Help Their  
Reelection Drive

WASHINGTON (AP)—Two Upstate New York House Republicans said today they are unconcerned about a Teamster union attempt to defeat them for reelection this year.

In fact, Reps. Alexander Pirnie and R. Walter Riehlman indicated the opposition of Teamster Union President James R. Hoffa may actually aid their campaigns for reelection.

**Favored Labor Reforms**

They are two of eight New York Republican House members the Teamsters Union seek to defeat this year because of their support last year of the administration-backed labor reform bill adopted by Congress.

The bill sponsored by Reps. Phil M. Landrum (D-Ga.) and Robert P. Griffin (R-Mich.) was opposed by organized labor including the Teamsters Union.

Neither Landrum nor Griffin, however, appear on the 56-member Teamster Union purge list.

Congressmen marked by the Teamsters for defeat are generally those who won their seats in 1958 by relatively close margins.

Pirnie won in 1958 by a vote of 70,482 to 68,271 while Riehlman's margin was about 13,000 votes in over 167,000 cast—90,285 to 77,499.

One New Yorker on the list—Rep. Francis E. Dorn—had a winning margin of almost 12 per cent, however. Other New York House members tagged for defeat by the Teamsters and their approximate victory margin in 1958:

**Others on List**

Reps. Frank J. Becker, 9 per cent; Albert H. Bosch, 8 per cent; Seymour Halpern, 6 per cent; John H. Ray, 5 per cent, and John V. Lindsay, 8 per cent.

Pirnie, of Utica, N. Y., said he didn't expect voters in his district to act favorably to "a selfish purge."

He said Hoffa doesn't control his congressional district and "I seriously doubt his policies represent the thinking of the average union member."

Riehlman, who comes from Tully, near Syracuse, said he didn't think Hoffa's opposition would be detrimental to his campaign.

He said Hoffa has the philosophy of a dictator.

## Women Will Aid Uncle Sam Taking Census This Year

By DOROTHY ROE

Associated Press Women's Editor

Can a woman keep a secret? The United States government will soon find out, as some 136,000 women start out April 1 in every city, town and crossroads to compile highly personal information about their neighbors, for the 1960 census.

This year Uncle Sam is depending largely on housewives to count the noses of Americans for him, since not many men are available for the job. The Bureau of the Census in Washington estimates that 85 per cent of the 160,000 takers of the 1960 census will be women, compared with 65 per cent in 1950. The reason: higher employment and higher wages. A two-week job at an average of \$13 a day doesn't have as many takers as it did 10 years ago.

Census takers will work largely in their own neighborhoods, for purposes of convenience and efficiency.

Questionnaires will be mailed to all residents of the United States late in March, and a few days later census takers will call to pick up the answers, and check them.

This is the rub. The new census questions go into details which Mrs. Jones may not want her neighbors to know questions about age, income, number of marriages and so on. One in four homes will receive detailed questionnaires containing 45 questions designed to give the government a living portrait of every American—how many days off you or your husband had last year, how you or he travels to work, how many bedrooms in your home, and so on. These detailed questionnaires are mailed direct to the regional census office, in a postage-paid envelope enclosed.

But the regular census form, containing 11 questions, is picked up by the census taker, who checks the answers. Since the census taker probably is a neighbor, some people may feel a few qualms about revealing all their vital and financial statistics.

The Census Bureau assures the public that all records are confidential, and that the enumerators are sworn to secrecy, with stiff penalties for divulging the contents of any questionnaire. Not even the President or the FBI can look at these census records, they say.

**LUNCHEON GIVEN FOR SECRETARIES**—Attending Saturday's luncheon for members of the National Secretaries Association were, seated (l-r) Dorothy Morrette, Bea Edwards, Mildred Easton and Shirley Gorham, president of the Kingston-Poughkeepsie Chapter. Rear (l-r) Arline Palmer, Blanche Cartier and Emily Osterhoudt. (Freeman photo)

## Secretaries Gather for Luncheon Here Saturday Afternoon

Members of the local Kingston-Poughkeepsie Chapter of the National Secretaries Association (International) heard the president and treasurer of the New York State Division speak at a special luncheon held at the Governor Clinton Hotel on Saturday, March 12.

Miss Arline Palmer, treasurer of the division, gave the details of the construction of this Association which is the world's largest association of business women in one profession. She pointed out that there are presently 475 chapters with approximately 25,000 members.

Division President Mrs. Mildred Easton described the beginning of the system of divisions. When chapters were first chartered throughout the country, they answered directly to the national headquarters. As the number of chapters grew and the membership enlarged, this became increasingly difficult.

Therefore, the idea of divisions was tried. In many cases, such as New York, a division is actually a state, however, in some localities, more than one state comprises a division. The purpose of the Division is to act as liaison between International and Chapters.

There are now 37 divisions. The Northeast District, of which the local group is a part, is comprised of seven divisions, New York, New Jersey, Pennsylvania, Rhode Island, Massachusetts, Connecticut and Canada.

Mrs. Easton also answered the question—Why N.S.A.? The National Secretaries Association is designed for secretaries. The history of the organization shows that the founders constructed the association so that each member would share companionship with other members and the inspiration that comes from belonging to such a group. The organization promotes the idea that the

secretary design her own mode of living to acquire professional status.

Following the speakers, new members were initiated into the local chapter. They are Mrs. Sylvia Paraschos, Miss Theodora Purdy, Miss Lillian Styles, Mrs. Dorothy Varney and Miss Margaret Zilnik.

SPENDING HER SHARE OF THE MONEY

Dear Mrs. Post: Last week a group of women with whom I play cards each week went out to dinner and the theater. We had the money set aside, having put away a little each week. The day the group went out I came down with a virus and could not go with them. They went out anyway, which of course, I didn't object to, but they spent all the money that was in the kitty, including my share, which I did mind very much. I feel that my share of the money should have been returned to me. In fact, I told them so at our last meeting and they seemed quite surprised at my attitude. Don't you think, Mrs. Post that they were wrong to spend my share of the money?

Answer: They most certainly should not have spent your share of the money. As you were unable to go with them, they should have put your share aside and returned it to you.

**TA: Meaning of 'Semi-Formal'**

Dear Mrs. Post: If an invitation to a semi-public dance is printed with the directions "semi-formal" on it, what kind of clothes are guests expected to wear?

Answer: This depends upon the community. In communities where the tail coat is worn, it would mean dinner coats (tuxedos) for the men and simple evening dresses for the women. In communities where the dinner coat is considered formal, men would wear dark sack suits and women afternoon dresses.

**The Name She Calls Herself**

Dear Mrs. Post: You have always said that correctly a widow should be addressed by her husband's name. However, in the case of a widow who calls herself Mrs. Mary Smith, is it still correct to address her as Mrs. John Smith even though she herself does not use this name?

Answer: Although she is incorrect, you would be very impolite should you call her by a name other than the one she uses.

Mrs. Post offers readers leaflets on a variety of subjects concerning etiquette. If you would like to have her leaflet E-19, entitled, "Mistakes Made in the Name of Etiquette," send 10 cents in coin to Dept. E. P., care of The Freeman, P. O. Box 99, Station G, New York 19, N. Y. Mrs. Post is sorry she cannot answer personal mail.

## POLLY'S QUIZ

By POLLY CRAMER

## Silk and Gilt Add Up to Chic Room and No Husband

Dear Polly: I have always wanted to do our living room over in pale blue and pink silk. I'd like marble-topped tables and gilt accessories. Now we can afford it and my husband is being contrary. He says such a room is too sissy for a man. Am I right in holding out for what I want? —Mrs. X.

Dear Mrs. X: In a word, NO. Your letter sounds as if you want "our living room" changed to "my living room." That man of yours may let you have it and then let you enjoy it in solitary splendor.

Dear Polly: My living room walls are pale green and drapes are a soft green which blends. Living room furniture is avocado green with a gold thread. I have a deep red platform rocker and a red and gray floor lamp with a red shade.

Floor is red tile and we are planning to carpet it. It won't be installed since we're not here permanently. What color do you suggest for carpet? And what do you think of red and green scheme? —Mrs. E. S.

Dear Mrs. E. S.: I wouldn't dare tell you what I think of this scheme. First, get rid of that floor lamp. Replace it with a

simple brass one with a tailored white shade.

Cover ALL of that red tile floor with a rug which could be pale green and brown tweed texture. Because it reaches from wall-to-wall, a rug does not necessarily need to be fastened down. And recover that platform rocker with a soft, brown-textured fabric.

Dear Polly: S.O.S.!! I want to do over my kitchen completely. I'd like pink and gray as a color scheme. Will have to use paper as the walls are in bad shape. I now have white appliances, white table with pink Formica top and an old chestnut corner cupboard.

I will have to paint the table and chairs, woodwork and buy new curtains and linoleum. I am lost when it comes to combining colors. Will be forever grateful for help. —Mrs. H. L.

Dear Mrs. H. L.: Well, you do have your colors in mind. Wallpaper and curtains could be matching provincial prints in gray, pink, black and white. Have white woodwork and a white resilient flooring marbled with black.

Then paint table and chairs black. Use pink, black and white striped pads n chair seats. Make fringed table mats of the stripes to use with pink napkins.

## St. Philomena's Society Holds Annual Breakfast

St. Philomena's Holy Name Society held its second annual father and son communion breakfast Sunday in the Governor Clinton Hotel.

President William Minahan extended a welcome to the members and their sons; the Rt. Rev. Msgr. Joseph Connolly, pastor; Mayor Edwin F. Radel of Kingston; Alexander Banyo, supervisor of the Town of Ulster and the Rev. Francis McKay, Maryknoll Father who was the principal speaker.

Father McKay described the countryside of Chile, where he spent seven years as a missionary. He spoke of the desperate need for priests in South America. When he went to his first assignment in Chile, the community had not had a resident priest in 40 years. He was very much impressed with the faith of the people even though they had been without a priest. He also compared the spiritual and material advantages of the youth of the United States with the Chilean youth. The Chilean young man does not have schools such as are known here and his father does not take him to affairs such as the communion breakfast.

Mayor Radel expressed a desire to see more active participation in local government by the people. He said they should help him and other members of governing bodies in making the decisions rather than complimenting or criticizing after the decisions are made.

Supervisor Banyo spoke on the growth of St. Philomena's parish through the efforts and untiring leadership of Msgr. Connolly.

Msgr. Connolly said plans for the new church are moving ahead and he hoped to be in the new church by fall of 1960. He also expressed gratitude to the Rev. Bernard P. Gerrity, assistant pastor, for the work he is doing for the youth of the parish.

The program closed with a showing of a film of the 1959 World Series between the Chicago White Sox and the Los Angeles Dodgers.

The successful event was under the direction of James Kenna, chairman, with the help of Pasquale Belisio, Paul Werner and Robert Campbell.

### Probe Being Held About Fury in Finch Jury Room

LOS ANGELES (AP) — The Finch case jury room may have been as full of sound and fury as the courtroom, according to reports reaching Dist. Atty. William B. McKesson.

McKesson, prompted by tales told by two jurors, wants to find out just what happened behind the locked door as the jury argued itself into a bitter deadlock.

His office Monday launched an investigation of reports of near-violent feuding and intimidation during the panel's eight days of fruitless deliberations. McKesson said he was specifically interested in the report that one male juror threatened to throw a woman juror out of a second-story window.

Regardless of what the probe reveals, one thing is certain. It won't affect the outcome of Finch-Tregoff trial No. 1.

The state is now pressing for an immediate second trial for Dr.

A better opening bid with the South hand would have been one no-trump, in which case North-South would probably have landed at three no-trump.

West opened the king of clubs against the four spade contract. South won and entered dummy with the ace of diamonds. He led the four of trumps next. If East had simply played the ten South would have finessed the jack, dropped the king with the ace, picked up the last trump and made his contract.

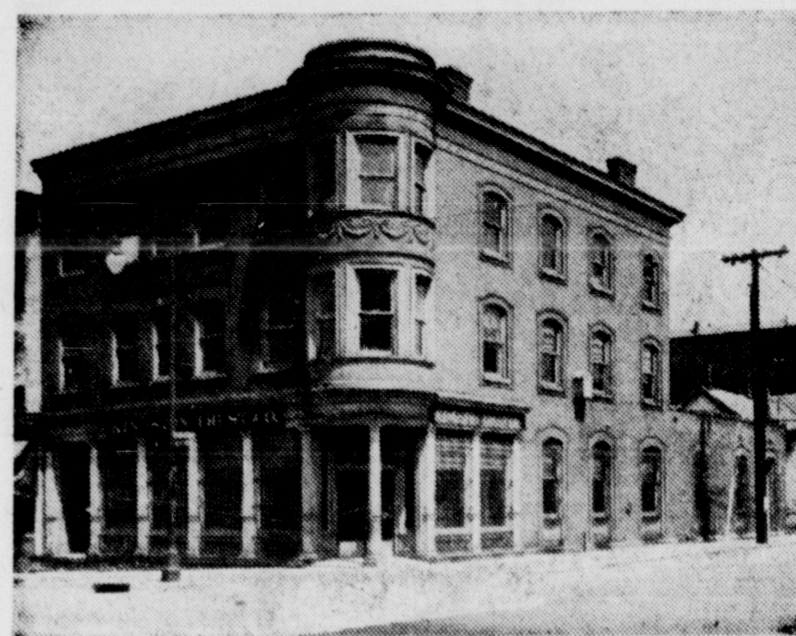

Unfortunately for South, East had been doing a little thinking of his own and could visualize what would happen if he played the ten so East played the king.

What would you do if you were South? The same as South did. He was convinced that the spade king had been a singleton. He took his ace, led a low spade and finessed dummy's nine. East produced the ten and returned a club and South's game and rubber had disappeared into thin air.

### Dr. Paul Perlman Is Winner In Winter Series Tournament

Milton Daskall of Accord and I. H. Wheatcroft of Kingston posted a fine 62 per cent game to take top honors on the North-South side of the Glenier Bridge Club tournament.

Mr. and Mrs. John Hoffman of Hurley turned in an excellent 63 per cent effort to dominate the East-West side. Twenty-four boards were in play in an 8-table Mitchell movement game.

Mrs. Frances Leggett of Stone Ridge and C. Paul Jensen of Kingston placed second on the North-South with 58 per cent. Mr. and Mrs. Harold F. King of Kingston were third with 52 per cent.

Runnersup on the East-West side were Charles Hobbs and

Emil Jansen of Poughkeepsie with 60 per cent, followed by Dr. Paul Perlman and Robert W. Greene of Woodstock with 53 per cent.

This game was the final in the Winter Series at the Ridgely Casino and the trophy for the series was won by Dr. Paul Perlman of Woodstock with a fine 57.5 average for the 8 games.

Second place went to Mrs. John Madden of Ellenville with a .565 average, followed by Mrs. Frances Leggett of Stone Ridge with .564. The trophy will be presented at the game next Friday.

The Glenier Bridge Club will hold its regular fractional point game at the Jewish Community Center in Kingston on Tuesday at 8 p. m.

## Explorer Post 6 Places Third In Scout Rifle Competition

### F. Bruno Rolls 641

Frank Bruno established a new high individual series record of 641 in the Independent League last night. He hit the hat trick with games of 213, 224 and 204.

Art Sheltzner fired 505, Craig Plough 517, Paul Khedriani 539, Allan Holt 523, Milt Cole Sr. 213-552, Ward DuBois 233-588, Harold Smith 534, George Barringer 517, Gurnsey Burger 205-570, Bob Geisler 218-509, Ted Gile Jr. 502, Wilson Brooks 202-546, Frank Schick 201-520, Bill Mohr 520, Bill Davis 537, Cliff Davis 571.

Team results: Callanan Road Imp. 2, Martin's Market 1, Broadway Florist 2, Thomas Printers 1, Slicker's 2, Delivery 2, Stone Ridge Firemen 1, Vogel's Dairy 2, Beichert Studios 1.

A team representing Explorer Post 6 of the Albany Avenue Baptist Church placed 101st in a field of 361 teams in the 1959 nationwide NRA-BSA annual Explorer Scout Rifle Match competition, according to announcement by the National Rifle Association.

Competing on the Explorers squad were Thomas Celuch, H. Phillips Eighmey, Robert Gillen and Richard Showers. The team was coached and instructed by David Lasher, a member of the Kingston Rifle and Pistol Club. Lasher is the Scoutmaster of Troop 6.

The course of fire for each of the team members was ten shots in each of the prone, kneeling and standing positions.

Thomas Celuch shot a 92 of a possible 100 in the prone position and Robert Gillen had the best overall score for the team with a 205. Plans are being made by the post to hold additional practice sessions and enter again next fall with higher hopes of winning a trophy.

## Top Area Clubs Are Expected To Participate

Tuesday, March 29, has been set as the opening of the seventh annual Kingston Basketball Tournament, sponsored by the Recreation Dept. Tourney Director Andrew J. Murphy III said the tourney will take place at the Municipal Auditorium with the finals listed for Friday, April 8.

It is expected that between eight and twelve of the top teams in the area will compete for the championship, held by the Byrne Chevies of Kingston.

Opening round games will take place on March 29 and 31 and semi-finals are slated Thursday, April 7. The finals will be held the next evening.

Entries must be submitted by March 29, along with the entry fee. The tournament will be single elimination with four team trophies, individual trophies to members of the winning team, a trophy to the tournament high scorer, trophies to all members of the All-Tournament team and the Hank Krum memorial trophy to the individual selected as the Most Valuable Player.

Among the early entries expected are the Pine Plains Bombers, Van Voorhis Lumber of Fishkill, American-Italian Restaurant of Kingston, an all-star squad from Monticello and some other top flight teams.

Pairings for the tourney will be made as soon as the deadline for entries is reached.

## A.A.U. Sanctions Weightlifting Event With Case

An official sanction to be used in holding the Kingston YMCA second annual New York State Weightlifting Championships has been received by Physical Director Dick Case from the Amateur Athletic Union (A.A.U.).

Ben Becker of the Adirondack Assn. and Kingston Club committeeman, John Higgins made the necessary arrangements this past week. Two big factors are important as a result of the sanction being awarded.

A representative of the AAU will be present to inspect and meet and also there might be a world's record matched or broken which would then be official.

Barry Leavey, club president, said entries are coming in and it is probable that last year's field of 56 starters will be shattered.

## Crookston Bombs 667

Arnie Crookston shattered the maples for a record breaking 667 in the Friday Night Mixer on the Chalet drives at Rosendale.

He opened with 256, dipped to 191 and bounced back with 220. Mabelle Davis decked 471, Linn Dyer 518, Betty Smith 425, Dolores Joyce 205-491, Shirley Williams 499, Edith Cherny 458.

Team results: Schiltz 1, Batt's 2, Unknown 1, Rheingold 2, Budweiser 1, Carling's Red Caps 2.

Bill Sinsabaugh, a winner in the recent March of Dimes sweepstakes, bombed a new high solo (265) and added 197 and 192 for a 654 aggregate in last night's session of the Tavern Association League. The 265 eclipsed the former high of 258 held by Don McConnell.

### Wilt's 53 Lead Warriors to Win

PHILADELPHIA (AP) — What a difference a year—and a man—has made in the Philadelphia Warriors. They're heading into the National Basketball Assn.'s Eastern Division final playoffs.

The man is Wilt Chamberlain who set another record Monday night in leading the Warriors to a 132-112 trouncing of the Syracuse Nats in the decisive finale in their three-game preliminary series.

A year ago the Warriors were the Eastern Division doormats and didn't get into the series.

Seven-foot-one Wilt the Stilt hit for 33 points, three more than the old playoff record. It was the ninth record Wilt set in his one-year NBA career. He had 16 points at the quarter and 10 in the second period when the Warriors wrapped up the game by taking a 14-point lead.

The Warriors journey to Boston to play the Eastern Division winners in their best four-of-seven series.

The Boston-Philadelphia winner meets the St. Louis-Minneapolis Western Division victor in the league final.

## Wehle Fishing Contest Starts Fifteenth Year

ROCHESTER — Louis A. Wehle, chairman of The Genesee Brewing Co., Inc. announced today that he would again sponsor a New York State Fishing Contest during the 1960 season, starting April first.

This is the fifteenth consecutive year that the former Conservation Commissioner has conducted this type of fishing derby which involves the distribution of \$5,135 in cash prizes to two hundred and forty-four men and women in New York State who register large catches in twelve classifications of fish. Following the precedent established last year, Mr. Wehle says he will again present an additional bonus prize of \$500 to all persons legally entering a fish of any of the twelve species that exceeds the weight of any similar fish entered in the contest during previous years.

A new twenty-eight page Fishing Guide is now in preparation outlining the rules and regulations, listing the winners of last year, plus an outline of the best fishing spots in the state. The guide, like the contest, is available without charge. It will be distributed through sporting goods stores, boat livers, bait shops and other stores or copies will be mailed by Mr. Wehle to those interested who will mail him a postcard addressed "Fishing Contest, 100 National St., Rochester 5, New York."

## Friend Figures To Capture 20 Wins for Bucs

FORT MYERS, Fla. (AP)—Figure Bob Friend for the comeback of the year in the National League. The big right-hander who lost 19 and won only 8 last season for Pittsburgh thinks he's got a shot at becoming a 20-game winner again with the Pirates.

"Everybody feels good in the spring, but I can't remember ever feeling as good as this," said Friend, who led the league in defeats after sharing the lead in victories with 22 the year before.

"I've got a shot at winning 20—this club is good enough for me to win that many."

The obvious difference so far about Friend is his weight. He reported about 15 or 20 pounds lighter than last spring, when he checked in at 214.

"My best weight is about 190 or 195," he said, "and I had a harder time getting rid of that extra weight last year. I wasn't worried about it at first because I never had trouble losing before, but when I finally did lose it, I lost it too quickly and I was weak. I just didn't have any stuff."

"I guess maybe it's just that I was a year older," said Friend, now 27, "and I have to watch my weight more. That's what I did this winter."

## St. Louis Buds To Roll Tonight In ABC Tourney

TOLEDO, Ohio. (AP) —Another big-name bowling team, Budweiser Beer of St. Louis, takes to the alleys tonight in the American Bowling Congress tourney which Monday night saw the defending champions fade away.

The Detroit Piffers, who set an all-time record in winning last year's 56th ABC Competition with 3243, tallied 2930 pins Monday night on games of 984, 922 and 1024. That effort, led by Capt. Ed Lubanski's 610, gives the Piffers a temporary hold on seventh place in the open team division.

The St. Louis Budweisers were third last year and fourth the year before.

Fourth place changed hands in both singles and doubles standings but no one broke into the top 10 in all-events.

Jim Fleishchacker and Neil Grufman of St. Paul, Minn., rolled a 483 in their third game after a lowly 342 start and 420 middle game to total 1245.

Grufman had a 246 and Fleishchacker 237 in the last game.

Their score moved them to fourth in the doubles standing which Robert Wheeler and Frank Ianarelli of Ashland, O., have topped since last Tuesday with 1287.

## Torres Is Picked To Defeat Dupas

BUFFALO, N. Y. (AP) — Jose Torres of Puerto Rico is a slight favorite over rugged Tony Dupas of New Orleans tonight in a 10-round middleweight bout at Memorial Auditorium.

Dupas, who recently ended the 25-bout unbeaten string of Buffalo's Rocky Fumelle, is expected to use the same crowd-pleasing, fast-counter type strategy that beat Fumelle. He is a veteran of 55 pro fights.

After two postponements, the testimonial dinner for George S. (Lanky) Masterson, former Newburgh Academy basketball coach, is definitely slated for March 23 at the Hotel Newburgh.

With seven DUSO pennants in a span of ten years, Masterson acquired the Mr. Basketball mantle relinquished by Coach G. Warren Kias of Kingston High and insured himself a niche in the DUSO's Hall of Fame.

Masterson could be the last of the Olympians among DUSO basketball coaches. The nature of the game is such that an unbroken string of championships is almost impossible in this modern era of free wheeling basketball. Kingston High which was rated far and away the best team in the league in the pre-season forecasts blew an important game against Newburgh Academy at the Kate Walton Field House and with it the conference championship. That the Maroons later swamped the Goldbacks at Newburgh not only compounded the chagrin of local rooters, but also pointed up the vagaries of modern basketball fortunes. You just can't call your shots in high school basketball.

Kias dominated the DUSO basketball league for more than 20 years. Masterson was top dog for a decade. Two men overshadowing all others over a 30-year period. It won't happen again.

## Flotsam and Jetsam:

The Dutchess County Old Timers Baseball Association has re-elected popular Steve Waryas as president and re-shaped its future plans. It has voted to stage a semi-annual fete, the first one on April 28 at which officers will be installed. The annual dinner was set for Saturday, Nov. 12, and five county Old Timers will be honored. This is a sharp reduction from the wholesale numbers honored at the first two dinners of the organization. Other officers are John O'Brien, first vice president; Bob Bogardus, Beacon, second vice president; and Pat Cappillino, treasurer. The group decided to divide the secretary's job. John Babiarz, a leading figure in the formation of the Old Timers was named recording secretary and George Dutcher was named financial secretary. Renamed to the Board of Directors were Harry Finn, Millerton; William Dunn, Amenia; George Simmons, Millbrook; George Cady, Pleasant Valley; Frank Lisewski, Pawling; Howie Conklin, Rhinebeck; Joseph Quinn, Town of Poughkeepsie and Foxey Kaman, Staatsburg. Newcomers to the board are Jerry Pisanelli, Poughkeepsie, and Tom Bryce, Dover Plains. New York-New Jersey League meets Sunday at Poughkeepsie to map 1960 plans.

## Birdies and Bogies:

The Wiltwyck Country Club swimming pool committee is moving rapidly toward its objectives. According to the present plans, the swimming pool will be 40 by 80 feet (Olympic size), will have a bath house, a small wading pool for children and a snack bar. It is anticipated that the yearly cost for membership to use the pool facilities will not exceed \$90 per family. The club is now polling its membership by mail to solicit swimming pool memberships. . . . Robert Trent Jones, Sam Snead and Fred Corcoran, former PGA tour director, are planning a course on a 260-acre tract they own near Davie, Florida. . . . Ted Kroll, former World Champion who toured Wiltwyck the year he won at Tam O'Shanter, has announced plans for the first annual DeSoto Lakes Open, where he is head pro. The new competition scheduled March 24-27, falls between the established St. Petersburg Open and the Masters. First place will be worth \$5,500 of the \$40,000 gross making it the richest tournament in the state of Florida. The unique and challenging 6,902-yard course is comparatively new, having been opened in September, 1958. The PGA rates the course at par 71, the USGA pegs it at 73. Sam Snead shares the course record of 65 with amateur Dr. John McKee of Orlando. The DeSoto layout lies between Bradenton and Sarasota.

**SIGNS OF THE TIMES:** Glenn Doty, the Middletown Times-Herald sports editor, said: "The impossible happened!" Warwick High upset Monticello, 59-50, in the finals of the Section 9 Class B tournament. Leo Armstrong, the DUSO's Player of the Year was slightly under par, but the Monties had been big picks before the action started. Just goes to show, you don't know who will beat whom in basketball these days, do you?

# F. Howard New Home Run Phenom for LA

VERO BEACH, Fla. (AP) —

There is a new phenom in the Los Angeles Dodger camp, whistling line drives through the pine trees and stirring up excited comment about a "new Babe Ruth."

Frank Howard is the name. He is the former Ohio State basketball star, a sturdy 6-foot-7 athlete who pocketed \$108,000 for signing with Los Angeles in the spring of 1958. After two sensational years in the minors and a brief trial run with the Dodgers last year he is getting the long look.

The consensus among the higher brass seems to be that Howard probably needs another year of seasoning. It all depends on the exhibition games. If he still reminds people of the Babe after spring training is over, he could make the big hop this year.

"I think he can do for baseball what Babe Ruth did as far as drawing power is concerned," said Pete Reiser, new Dodger coach who managed Howard at Green Bay in 1958 and at Victoria, Tex. last year.

"He has as much power, if not more, than anybody I ever saw," said Walter Alston, the Dodger manager.

All the superlatives come from the brass. None from Howard, a polite young man of few words. Howard, 23, is so engrossed with his work that it is difficult to pin him down for even a few words.

The brass decided last year to make over Howard from an outfielder to a first baseman. He hit .333 at Green Bay in 1958, .356 at Victoria the first half of last season and .319 at Spokane in the Pacific Coast League the last half. In two years in the minors, split among Class B, AA and AAA leagues, he has hit 80 homers and driven in 245 runs.

## Coast Mentor Rates in Even

SAN FRANCISCO (AP) — Rene Herrerias, California's present assistant basketball coach and the head coach-to-be, figures Friday's NCAA semifinal against Cincinnati at just about a standoff.

"We're tougher than we were a year ago," Herrerias declared after scouting Cincinnati in the Midwest regionals, "but Cincinnati is definitely stronger."

The little coach, who moves up to the head job when Pete Newell takes over the Cal athletic directorship, said California, defending NCAA champion, won't have the advantage of surprise as they did last year.

The Bears went into the tournament at Louisville unheralded, stopped Oscar Robertson and Cincinnati 64-58, then beat West Virginia 71-70 for the title.

Friday the two teams meet in the Cow Palace after Ohio State meets New York University. Herrerias said Robertson, the nation's leading scorer three years in a row, is still the same Big O, but this year he has a stronger supporting cast.

### Davey Moore to Quit

CARACAS, Venezuela. (AP) — A little known Venezuelan fighter broke world featherweight champion Davey Moore's jaw and forced the Springfield, Ohio, scrapper to leave the ring in the seventh round of a scheduled 10-round non-title bout Monday night.

Young Carlos Hernandez rocked Moore with a hard right in the third round and sent him down for a six count. Moore clinched and waited for the bell.

It appeared it was the third round blow that fractured Moore's jaw. After the fight, his jaw was placed in a cast.

Moore weighed 127½, Hernandez, 130.

## Crocker Scores By Seven Shots

AUGUSTA, Ga. (AP) — Fay Crocker may be 45 and have thin blood, but the South American seniorita has plenty of staying power on the golf course.

She proved that in the 21st Women's Titleholders when she jumped out front the first day, led all the way and won by seven shots over Kathy Cornelius of Lakeland, Fla.

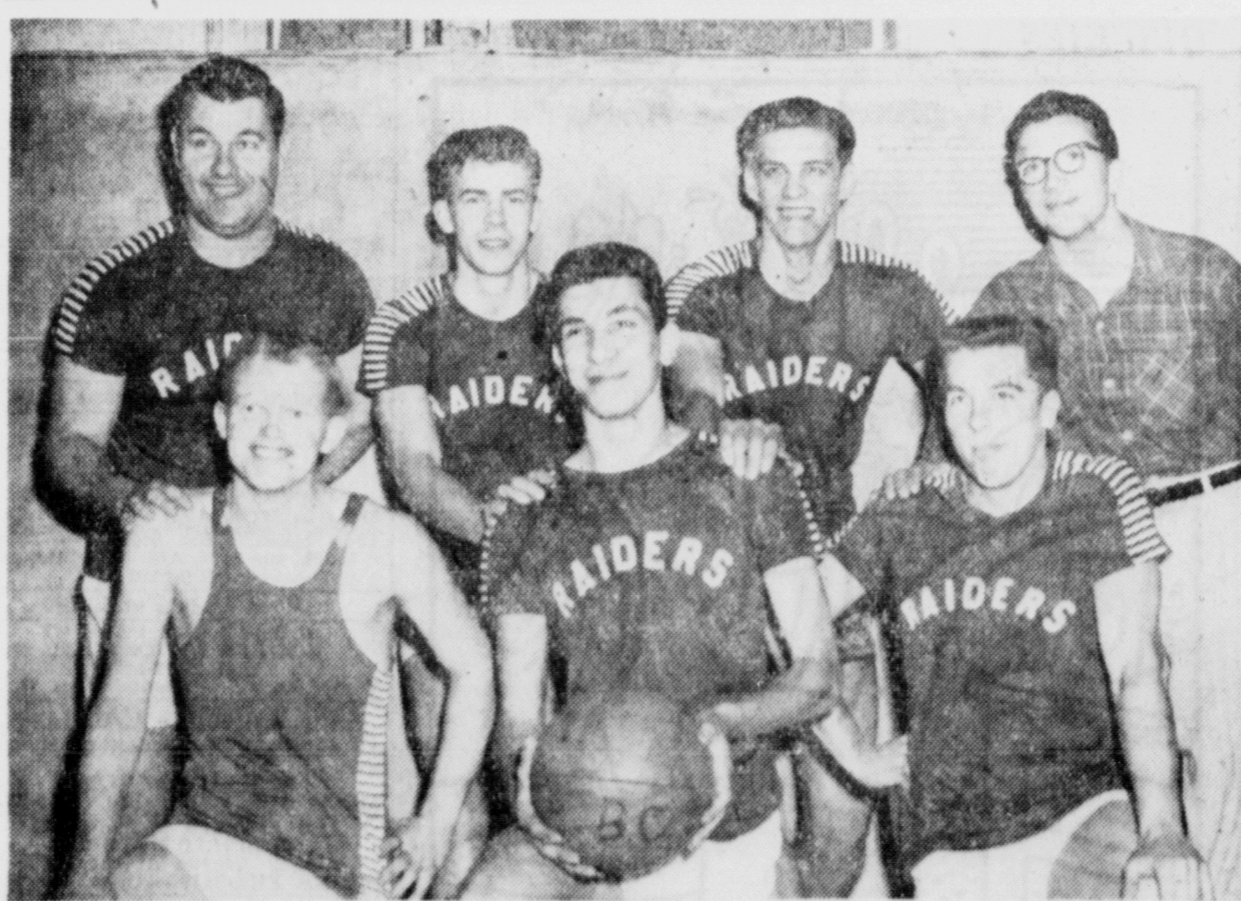

Miss Crocker took top money of \$1,200 Monday with a 303. Mrs. Cornelius had 310, good for a \$900 check.

Par for the 6,300-yard Augusta Country Club course is 36-36-72. Never easy, the hilly layout was tougher than usual this year, after late winter snow and ice storms left the course in less than perfect shape.

Before the tournament started Miss Crocker of Montevideo, Uruguay, belittled her chances of winning. She said she follows the sun and can't take cold weather.

## Change of Pace

TUCSON, Ariz. (AP)—Outfielder Jim Piersall has been so quiet and industrious during the first two weeks of the Cleveland Indians' training program that people look at his uniform number twice to be sure it's Jim. General Manager Frank Lane wrote the one-time madcap in January that if the club wanted a clown it would try to hire one from the circus. Now Piersall won't even pose for a playful photograph.

MINOR LEAGUE WINNERS—The Raiders captured honors in the Minor Basketball League at the YMCA with a 9-2 record. They also won the Fall Senior League crown and are now in the Major League playoffs against American-Italian.

MANTE GOES TO WORK—New York Yankee outfielder Mickey Mantle pounds the ball in batting practice while trying to make up for lost time in spring training at St. Petersburg, Fla. He ended his holdout last week after accepting a reported \$10,000 cut in salary. (AP Wirephoto)

# Ex-Yankees Figure to Start In Kansas City A's Lineup

By MIKE RATHET

Associated Press Sports Writer

The shuttle system operating between Kansas City and New York — for use by baseball players only — may have dropped off five front-liners who'll be in the Athletics' starting lineup when Bob Elliott makes his managerial debut in the majors.

The A's, berated by many for their numerous transactions with New York, could open the 1960 campaign with Bob Cerv, Hank Bauer and Norm Siebern in the outfield, Jerry Lumpe at shortstop and Marv Throneberry at first base.

## Two Hurlers

Elliott also has two starting pitchers—Johnny Kucks and Don Larsen—either of whom might wind up with the opening day mound assignment.

Kucks was the pitching star and Lumpe and Siebern the batting heroes Monday as the A's defeated the Milwaukee Braves 7-5 in an exhibition game.

Kucks pitched three scoreless innings and received credit for the victory when Lumpe and Siebern cracked homers in the third inning for a decisive 4-0 lead.

The American League champion Chicago White Sox and the Baltimore Orioles ran their records to 3-0. The Sox defeated St. Louis 8-4 while the Birds kept Cincinnati winless 9-4.

In other spring tests, Washington whipped Los Angeles 7-4, Detroit beat the Yankees 4-2 and Philadelphia took Pittsburgh 4-1.

# Moon Hopes To Improve 302 Mark

VERO BEACH, Fla. (AP)—Los Angeles writers voted Wally Moon the most valuable player on the 1950 World Champion Dodgers. Yet Moon, who boosted his batting average from a 1958 low of .238 to a handsome .302 is not satisfied.

"I'm a better hitter than that," said the 29-year-old outfielder. "I would have hit that much last year if I hadn't wasted a month and a half battling the right field wall in the Coliseum."

Moon came to the Dodgers last year in a trade with St. Louis for Gino Cimoli. A left-handed hitter, Moon tried to pull everything but found the distant right field fence in the Dodgers' lopsided home park too much for him.

It wasn't until June that he conceded and began to concentrate on punching the ball toward left field. Before long he was denting the left field screen, only 250 feet away, with consistency. He wound up with 26 doubles, 11 triples and 19 home runs.

"I'm a better hitter when I hit the ball where it's pitched," Moon said. "This year I'll be starting right from the beginning to hit the out-pitch to the opposite field. That's why I believe I should greatly improve on my average of last year."

## White Eagle Paces Shuffleboard Loop

White Eagle continues to lead the Fraternal Shuffleboard League by a comfortable margin. In matches last week, the leaders beat the Elks, 4-3; St. Mary's won, 6-1, over the second place Moose Club and K of C topped KPBA, 5-2.

The standings:

Team	Won	Lost
White Eagle	93	47
Moose	79	61
VFW	72	61
St. Mary's	77	63
Elks	68	72
K of C	62	78
KPBA	33	100

High honors went to Joe Rud (K of C), 20; Francis Duffy (K of C), 18; Tony Turk (White Eagle), 16; Joe Wenzel (White Eagle) and Tom Yanta (St. Mary's), 15 each.

## Lawrence 4th In Melbourne

MELBOURNE (AP)—Al Lawrence, Australia's world record-holder for the indoor 2 and 3-mile runs, faded in the stretch Monday and finished fourth in a 5,000 meter Olympic trial.

The University of Houston student, tiring in the final 220-yards, came in 30 yards behind the winner, Bill Baillie of New Zealand. Baillie was timed in 14 minutes, 1.6 seconds.

Dave Stephens was second, followed by Dave Power, British Empire 6-mile and marathon champion.

## Operation Trout Planting Underway

State Conservation Department personnel started stocking operations in Ulster County today, with units covering the Flatkill and Sawkill creeks.

A total of 1,570 Browns will be planted in the Flatkill near Saugerties, while another 1,570 Browns of the seven-inch variety are destined for the Sawkill at Woodstock.

The crew assemblies at the Woodstock firehouse Thursday at 11:15 a. m.

## Cleveland Skater Nears Score Title

NEW YORK (AP)—Cleveland's Fred Glover has just about wrapped up his second American Hockey League scoring title according to league statistics released today.

With only two weeks of regular season play left, Glover has 96 points, 13 more than runnerup Bill Sweeney of Springfield, and an increase of nine over last week. Glover has 37 goals and a league-leading 59 assists.

Stan Smrke of Rochester leads in goals with 38, and Ed Chadwick, on emergency duty with the Toronto of the National League, leads the goalies with a 2.79 goals-against average.

## Gallagher Returns To Niagara Duties

NIAGARA FALLS, N. Y. (AP)—John J. (Taps) Gallagher, Niagara University basketball coach who was sidelined most of the season following an operation, will return to the Purple Eagles' helm next season.

The Very Rev. Vincent T. Swords, CM, president of the University, said Monday night Gallagher would resume his coaching duties. Freshman coach Lloyd Patterson replaced Gallagher early this season.

Talk in New York sports circles is all about the lengthy retort the football Giants made to a local columnist's comments on the delayed resignation of Jim Lee Howell . . . in a letter sent to all their season ticket holders . . . which amounted only to a quibbling defense of their policies.

New York's also talking about the way they're NOT talking about Mickey Mantle's holdout . . . or who cares whether a guy makes 60 grand or 70 grand for clouting a baseball? . . .

Organized baseball's next bout with the colleges could come over the persistent efforts of the Tigers to get Dave DeBusschere, the sophomore All-American basketball player from Detroit, to toss his hooks at batters instead of buckets . . . with a big bonus as the dangling bait . . . but Dave sees himself as another Gene Conley who'd like to double on both the diamonds and the courts as a career. . . .

The football Giants worried about the thumb of George Shaw, their quarterback insurance for Conerly . . . still hasn't come around from last season's dislocation, and they're having him come down to L.A. so Bam Mader can examine it. . . .

The same Giants are also going to a lot of expense for a principle . . . for the papers they're about to serve on Charley Flowers (Ole Miss All-American) and the Los Angeles Chargers for breach of contract and inducement to breach of contract, respectively, will set the trial site in Los Angeles . . . mean a lot of expensive commuting for the Giant brass . . . and might drag out longer than Flowers' career or cost more than his value as a fullback. . . .

Maybe the Celtics are the greatest basketball team of all time . . . but they're having trouble selling them to Boston . . . for attendance has slumped in four years from a 10,000 average attendance to 7,000 . . . with a chance it'll go still lower next year.

Madison Square Garden, which originally had Eddie Macdon pincelled in to fill a March 18 date, couldn't get him because Sid Flaherty wanted to do a turn for a San Francisco fight club which is in trouble financially . . . and yet when you ask Sid about Bobo Olson's evaporated pension fund (the government took it for taxes), he shrugs, "I'm no longer a humanitarian." . . .

Alec Cushing, the squire of Squaw Valley, wasted no time getting back into action once the Winter Olympics vacated—ordered the Olympic Committee to get their trailers off his land or pay him a grand a day rental. . . .

Dick Skuse, whose brainchild the Games was (and then got fired by Cushing because Squaw no longer needed a publicity man), didn't come back exactly empty from the winter extravaganza. . . . His daughter now has a Russian phonograph record, a Polish locket, a book on Liechtenstein in three languages, a model of Sputnik and 30 pins. . . .

Maybe the San Francisco Giants figured they had their second base problem licked by getting Don Blasingame . . . but around the National League he has no great rep for fielding finesse . . . just speed. . . .

Pro basketball may confound everyone by not going West to expand . . . but looking to the East . . . because from one high council in the league comes the thought that they want to get a better balance of power, which might come from re-installing a team (like Minneapolis) in Baltimore or Washington . . . getting a better TV market . . . and shifting tough Syracuse to the West to give the St. Louis Hawks a semblance of competition. . . .

The Cincinnati Reds, who thought they got something special in first baseman Gordon Coleman (part of the Johnny Temple deal), wonder when last year's minor league sensation shows he can catch a ball. . . .

Between you'n' me, how about the gullibility of a TV network, which telecasts fights, letting two fighters go on who are managed by the same man? . . . and how about the sanctimonious National Boxing Association letting it get by? . . .

# OUT OF DOORS with Field & Stream

By JOE STETSON

Dog Editor, Field & Stream

There are six kinds of dachshunds.

They are bred in two sizes, standard and miniature. Both sizes occur in three coats—smooth, wirehaired and long-haired.

The wirehaired look much more terrier-like than the smooths. The longhaired look something like a long-legged spaniel with a long tail. Beneath the coat the physical structure is the same and the colors are usually red or black and tan.

The standard size is that bred to go to ground to bay the badger.

Some have the idea that the miniature is merely a toy. Actually smaller dogs, often referred to as pocket dachshunds because they were carried in the pockets of game jackets, were used to go to ground for the small rabbits or conys, which are prevalent in many parts of Europe.

## Democrats Will Pick Finletter, Judge Delegates

NEW YORK (AP)—Reform and regular Democrats have compromised to name former Air Force Secretary Thomas K. Finletter and former Judge Henry Silverman as delegates to the party's national convention from the 17th Congressional District in Manhattan.

Finletter is a leader in the movement to oust Carmine G. DeSapio as leader of Tammany Hall and Michael H. Prendergast as state chairman. Silverman is a DeSapio supporter.

Millard L. Midonick, a neutral in the party split which started after the 1958 state convention at Buffalo, was named delegate-at-large to the July 11 convention from the district. Alternate delegates will be picked at a meeting of district leaders Friday night.

The choices were announced Monday by Mrs. Alice Sachs, Democratic co-leader in the 9th State Assembly District, after a meeting of congressional district leaders.

She said former Sen. Herbert H. Lehman and Mrs. Franklin D. Roosevelt, also leaders in the reform movement, would be named delegates-at-large from the state.

Lehman, who is out of the city, had said recently he would attend the Los Angeles convention as an observer but not as a delegate if his choice depended on the favors of DeSapio and Prendergast.

The 17th is the home district of DeSapio, Lehman and Finletter. It is called the "silk stocking" district because a large part of it is a high income area. The district is traditionally Republican in a traditionally Democratic city.

Mrs. Roosevelt, Lehman and Finletter started the reform movement after Finletter failed to receive the party's nomination for U. S. senator. They charged the state organization was dominated by bosses.

DeSapio confirmed the choice of delegates. There was no immediate comment from Mrs. Roosevelt or Lehman.

PSC Authorizes Walden Phone Co. To Issue Stock

ALBANY, March 15 — The Public Service Commission today authorized The Walden Telephone Company to issue and sell 874 additional shares of common stock and convertible debentures totaling \$109,400. The company proposes to sell the stock at \$60 per share, thereby procuring \$161,840 from the new securities.

Of this total, \$150,000 is to be used to retire outstanding short-term notes and the balance for financing future construction.

The company, with headquarters at Walden, provides telephone service in portions of Orange and Ulster counties through dial offices at Walden, Montgomery, Pine Bush and Wallkill. It proposes to offer the new securities initially to present stockholders, granting each the option to buy one additional share of stock for each five now held and one \$100 debenture for each four shares of stock now held.

Retired Curator Dies NEW YORK (AP)—Alvin W. Croore, 72, retired curator of the Children's Division of the Rochester, N. Y., Museum, died at his home Monday following a cerebral hemorrhage.

## Levitt to Check Closely Buying Policies of N.Y.

ALBANY, N. Y. (AP) — The state comptroller plans to scrutinize the buying practices and other financial policies of 24 public authorities.

The agencies include the Thruway and State Power Authorities. Comptroller Arthur Levitt intends to set up a unit in his department for the purpose, a spokesman said today.

Housing and other authorities operating within municipal lines will not be affected. The State Housing Division supervises the housing authorities. Accounts of the others within municipal lines are audited along with all municipal accounts.

The jurisdiction of the 24 other authorities extend beyond municipal lines. The spokesman said Levitt believed their auditing practices could be improved on a cooperative basis.

## Weary Areas Hit Anew by Fading Winter Onslaught

**By THE ASSOCIATED PRESS**  
Fading winter kicked up another snowstorm across broad areas in the midcontinent and parts of the Southeast today, five days before its official demise.

It was the fourth major snowstorm this month and came as many communities still were digging out from last week's heavy falls. Spring arrives Sunday morning at 9:43 a.m. EST.

**Covers Wide Areas**  
The snow belt covered wide areas extending from northern sections of Alabama and Mississippi northwestward through the mid-Mississippi Valley and parts of the Plains and Rockies.

Schools in some parts of the snow belt were closed. Heaviest snowfall during the night was from the central Plains eastward through Missouri and much of Tennessee and from Kansas into the Dakotas.

The fresh storm left a covering of more than 9 inches in parts of Kansas and warnings of falls ranging from 4 to 12 inches in Missouri were issued by the Weather Bureau. Heavy snow warnings also were posted for areas in Kentucky, Tennessee and southern Illinois and lesser amounts in parts of Iowa, Nebraska and Kansas.

**No Severe Cold**  
Sleet and freezing drizzle was indicated from northern Arkansas eastward across northern Alabama and the Coast, and extending into southern West Virginia. No severe cold was reported this morning, in the wake of sub-zero temperatures in many parts of the Midwest Monday morning. However, readings generally were below seasonal normals in most areas.

## Hoffa Hits Critics At Rally in N. Y.

NEW YORK (AP) — Teamsters Union President James R. Hoffa hurled criticism at most of his adversaries Monday night at a Madison Square Garden rally.

An estimated 8,000 cheering Teamsters and members of their families half-filled the garden. The Teamsters president had angry words for recent labor legislation, Sen. John F. Kennedy (D-Mass.), his brother, "little Bobby Kennedy," AFL-CIO President George Meany, Auto Workers President Walter Reuther, the press, radio, and television.

Sen. Kennedy, who helped write the new labor law, was a member of the Senate committee which investigated union and management racketeers. His brother, Robert F. Kennedy, was chief counsel of the committee.

His audience enthusiastically whistled and cheered as Hoffa turned to reporters covering the rally and said: "There is no use talking to reporters. Distortion is what you can expect from the press. Editors are controlled by big business."

## Woodstock Riding Club Shows Have 6 New Horses This Year

The off season brought six new horses to Woodstock this winter and all are expected to compete in the Woodstock Riding Club shows this coming season.

Perhaps the best known arrival was Father Jack, a fine bay gelding hunter and jumper formerly owned by Judy DeGroff of Kingston and well known locally. Father Jack joined the stables of John C. Larson family of Ohayo Mountain Road. Father Jack with Sister, Quickly will carry the Larson colors in competition this season.

Just down Ohayo Mountain Road a piece, the Telford A. Grahams have two new western horses, Sunny Boy, a buckskin gelding and a chestnut gelding as yet unnamed by the new owners. Both horses are expected to see action in horse shows this summer.

Guide? Are these the goals we think our school should have, or do we even think?

"Do we as parents wish to abdicate to the school the entire job of training our children in moral and spiritual values, and can we as a community afford to hire trained teachers to do this? Can we truthfully say we are not lazy to resume our normal role of parent? Would it not be more intelligent to have our faculty spend their time, and our children's time, solely in educational pursuits? Are we so wealthy that we can afford to hire teachers to train our children to blow their noses and tie their shoes? Is it more important to us to pay a teacher to do playground duty than correct arithmetic papers? Could we possibly hire an extra teacher for the sole purpose of correcting compositions and book reports so that more of these might be required of our children? Are we such inadequate parents that the faculty must waste class time because our children are so poorly disciplined?"

"Are not these types of questions we should be concerning ourselves with? Would not a P-TA meeting be the proper place for debate, resolution, then action? Are we too complacent to care?" — JANET GREENE

**Christian Science Services on Sunday**  
The power of faith, raised to spiritual understanding, will be emphasized at Christian Science services Sunday in Woodstock.

Mark's account of the healing of the epileptic boy will be read, concluding with Christ Jesus' words (9:29): "This kind can come forth by nothing but by prayer and fasting." The subject of the Lesson-Sermon is "Matter."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include this (23:16): "Faith, it is mere belief, is as a pendulum swinging between nothing and something, having no fixity. Faith advanced to spiritual understanding, the evidence gained from Spirit, which rebukes sin of every kind and established the claims of God."

The Golden Text is from Colossians (3:2): "Set your affection on things above, not on things on the earth."

## OCS Investment Lectures Explain Stocks to Pupils

Members of the senior class in American history at the Ontario Central School at Boiceville recently participated in a novel consideration of investments and the function of the stock market.

Dr. Alfred J. DiCaprio, a regular member of the school staff and an expert in the field of investing, served as a "visiting consultant" in this topical presentation. During a period of two class sessions, Dr. DiCaprio conducted a lecture and demonstration program relative to stock market operation.

In the initial meeting, the following investment mechanics were considered: (1) the difference between speculation and investing (2) the functions and evils of speculation (3) the various kinds of stock and bonds (4) how dividends are determined (5) what determines the worth of a security (6) what is a Dow-Jones average (7) what are four characteristics to be considered before purchasing a security (8) what is the full reason for the recent stock market decline.

**Careful Study Urged**  
Class members were admonished to be as thoroughly versed as possible in the field of investment before contemplating the purchase of any security.

During the latter part of the second class session, student members participated actively in placing an actual "selling order" in the name of the instructor, Daniel Davidson, student audio-visual aide, arranged communications, linking units of the school's public address and telephone systems. This enabled the selling transaction conducted by Eda Crist, student members, and Eugene Nixon, a customer's man

## Rev. Cook's Sermon Will Be 'The Secret Of Discipleship'

"The Secret of Discipleship" will be the sermon topic of the Rev. James W. Cook on Sunday, March 20. The text for the sermon is from the Gospel of St. John 8:7 (K. J. V.). The Sacrament of the Holy Communion will also be administered at all the worship services on the charge this Sunday. There is a nursery for small children in the Woodstock church during the worship hour. You and your family are invited to come and worship with us this and every Sunday.

**Meeting Notices**  
The Rev. Cook will conduct the first in a series of four classes on Church Membership, on Thursday at 8 p. m. in the

## House Seen Only Hope For Quick End to CR

**By JAMES MARLOW**  
**Associated Press News Analyst**  
WASHINGTON (AP) — The civil rights fight in Congress goes on and on. Sometimes it seems as confused as ever. If there is to be a quick and quiet end to it, the House apparently will have to provide it.

For a month, through Southern filibuster and miscellaneous debate, the Senate talked on civil rights like a man addressing himself in the mirror. He wasn't changing his mind but at least he had a respectful audience.

**Works Much Faster**  
Then over the weekend Sen. Everett Dirksen of Illinois, the Republican leader, said he thought the Senate might just wait till the House passed a civil rights bill and then approve that. A couple of weeks ago, when others had a similar idea, Dirksen had advocated going ahead with the Senate's own bill.

The House, which started last week on its own civil rights bill, has worked much faster. Unlike the Senate, where debate is unlimited, the House agreed to cut speechmaking short. It expects to pass the bill this week and send it to the Senate.

But Monday Sen. Lyndon Johnson of Texas, leader of the majority Democrats, called for the Senate to get busy disposing of more than 100 proposed amendments to its own bill.

For the Senate to discuss and act on 100 or more amendments—particularly since each senator can try to tack amendments on an amendment—should be quite a spectacle.

**Keep Senate in Knots**  
A handful of Southerners—18—kept the Senate in knots with their around-the-clock filibuster against the civil rights bill.

Finally last week, some impatient Northern liberals tried to shut off the Southerners. But they couldn't find enough other senators to go along with them and

make it stick. Instead, the Senate resumed regular sessions without the around-the-clock talking. Then Sen. Frank J. Lausche, Ohio Democrat, proposed amending the administration's bill. One section called for making it a crime to obstruct a federal court order in school integration cases. Lausche suggested it be made a crime to obstruct court orders in any kind of case, including labor disputes. The Southerners, who wouldn't buy what the bill proposed in school cases, were willing to go along on Lausche's broader idea.

Northern liberals, who may have thought this was the only way to avoid frustration of court orders in school cases, presented the extraordinary spectacle of going along with the Southerners. Then labor unions screamed, because the change would make it a crime to interfere with antitrust injunctions as well as antisegregation and other orders. The Senate ended up knocking out the whole section, including the amendment it had just adopted. This was about as dizzy a performance as the Senate has put on in a long time. But it will probably look intellectual compared with what lies ahead if the Senate ever gets tangled in all those 100 other amendments.

### Four Get \$53,200

LONDON (AP) — Four armed men in a car rammed a bank truck today, overpowered the two guards and seized 19,000 pounds (\$53,200) in currency. Then they fled in a getaway car parked nearby.
